### NOTE ON THE EARLY COTTON CROP IN BENGAL, 1897.

The following is published for general information.

The 23th December 1897.

M. FINUCANE,

Secy. to the Govt. of Bengal.

### DEPARTMENT OF LAND RECORDS AND AGRICULTURE, BENGAL.

#### NOTE ON THE EARLY COTTON CROP IN BENGAL, 1897.

1. *Explanatory.*—The present Report furnishes estimates of the area and outturn of the early Cotton Crop of the Provinces, which is sown during the monsoon rains and harvested during the cold weather. Estimates of the area and outturn of the late Cotton Crop, which is sown at the close of the rainy season and harvested in the hot weather, will be furnished in due course in a separate report.
2. *Character of the season.*—In July, the rainfall was below the normal in most of the early cotton districts; but the defect does not appear to have produced any bad effects.

In August, it was more evenly distributed. In September, it was again below the normal, taking all the early cotton districts together. In October, the rainfall was everywhere above the normal. In November, the weather was seasonable. But for the cyclone which passed over the Chittagong Division in October, and almost wholly destroyed the crop in the Chittagong Hill Tracts, the season was, on the whole, favourable to the cultivation of the early cotton crop of these Provinces.

3. *Total area sown.*—The total area cultivated with early cotton this year is estimated as 1,53,300 acres, against 86,200 acres estimated for 1896. The increase in area amounts to 12,100 acres, or 22·1 per cent. on the area sown last year. The Districts of Manbhum and Palamau account chiefly for this increase. In Manbhum, an area of 20,000 acres is returned as sown with cotton this year, as compared with an area of 6,500 acres in 1896. The Deputy Commissioner has been asked if there is any special explanation to be offered of this sudden extension of cultivation. From Palamau, similarly, it is reported that the area sown this year (10,000 acres) is almost double that sown last year. The only districts that show a contraction in the area cultivated this year, as compared with that of last year, are Midnapore (with a nominal decrease of 200 acres), and Lohardaga (with a decrease of 1,900 acres).

4. *Character of the crop.*—The outturn, generally, is an improvement on the figures of 1896, and it is only in the Chittagong Hill Tracts that the outturn compares unfavourably with that of last year. One district, viz., Cuttack, returns a 17-anna crop; six districts, viz., Moughyr, Angul and the Khondmals, Hazaribagh, Lohardaga, Manbhum and Singbhum return full average crops of 16 annas; and five districts, viz., Bhagalpur, the South Parganas, Puri, Balasore and Palamau return crops varying from 12 to less than 16 annas. Midnapore returns a 8-anna crop, and the Chittagong Hill Tracts only a 4-anna crop. Taking all the early cotton-growing districts together, inclusive of the Chittagong Hill Tracts, the outturn this year, calculated with reference to the area sown, is estimated at  $12\frac{1}{2}$  annas, against a crop of 9 annas for last year. Exclusive of the Chittagong Hill Tracts, the estimate of outturn this year for the early cotton districts amounts to  $14\frac{3}{4}$  annas.

5. *Gross outturn.*—The estimated yield of the early cotton crop of the current year amounts to 8,030,500 lbs., against 5,064,500 lbs. estimated for 1896. The average yield of the three preceding years, i.e., 1893, 1894 and 1895, amounts to 6,382,000 lbs.

N. BANERJEE,

*Asst. Director of Dept. of Land Records  
and Agriculture, Bengal.*

(COUNTERSIGNED).

P. C. LYON,

*Director of the Dept. of Land Records  
and Agriculture, Bengal.*

✓

munications at Rs. 2,000. Three lives were lost by the fall of boulders on the hill sides. Damage, as a rule not serious, was done to buildings on estates in many parts of the district.

*Rangpur District.*—As already stated, this district suffered more than any other in the Province. Nearly all the public and private masonry buildings are severely damaged, and a large proportion either wrecked or rendered unfit for occupation. The cost of reconstruction and repairs of Government buildings has been estimated at about Rs. 3,00,000. The damage done by the earthquake occurred mainly in the alluvial portion of the district which occupies about 90 per cent. or 3,000 square miles of the entire area. The roads and ridges suffered very seriously, the former subsiding or being upheaved and secured in many places, and many of the latter collapsing through the destruction of their abutments and piers, or being otherwise injured beyond repair. The railway lines passing through the district suffered similarly. Two important drainage canals at Rangpur and smaller drains at Kurigram and Nilphamari were nearly filled up with sand, and became contracted in width by about 5 per cent. The same effects were produced in the small rivers and channels. The silting up of these waterways is a serious result of the earthquake, which may hereafter check drainage, cause floods and render the flooded tracts malarious. The water-supply for domestic use has also been affected by the upheaval of sand within the wells, which are largely used over the greater portion of the district. A good deal of damage was caused to crops by fissures in the cultivated fields, from which sand and water were thrown up. Notwithstanding the destruction caused to property, the number of deaths reported in the district is only 18, or less than the number returned from the Murshidabad district.

*Bogra District.*—Here the Collector's court-house and treasury strong-room and the circuit-house were all but wrecked, while the treasury guard-house, the residence of the Magistrate, and the office of the Manager of the Joypur Government estate collapsed. Severe injury was also done to the jail and educational buildings, to the sub-registry office and to the residences of the Civil Medical Officer and the District Superintendent of Police. All the police-stations but one, and the roads, bridges and bungalows under the District Board, were more or less damaged. The approximate cost of reconstruction or repairs is estimated at about Rs. 1,14,000. Private buildings have suffered to a proportionate extent. The Collector has described the effect of the earthquake throughout the district as follows :—

"In the alluvial tracts, where the houses are mostly constructed with mat walls, bamboo posts and grass thatches, no injury to houses of this description has been caused. But all *pukka* houses, whether on clayey or sandy soil, and houses with mud walls in the clayey (*khair*) tracts have suffered terribly. In the interior of the district, however, the injury done to mud-walled houses is not a matter of much serious concern. They are easily repairable, and that commonly by the personal labour of the occupants. It is the brick-built houses in which the greatest amount of havoc has taken place. Both of the towns of Bogra and Sherpur have suffered badly. The scene which these towns presented after the earthquake was, indeed, a most woeful one. In fact, brick-built houses all over the district have, with rare exceptions, suffered badly, either having collapsed entirely, or having been badly shaken and cracked. Roads and bridges also have been injured in many places, the surface of the road having cracked and sunk in many places, and bridges having cracked in others."

In the town of Bogra two persons lost their lives, and eight were killed in the interior of the district.

*Pabna District.*—In the north-eastern part of this district, forming the Sirajganj subdivision, the effect of the shock was most severe. At Sirajganj, the Magistrate reports the upper story of the Subdivisional Officer's office and residence, known as the Barakothi, the subsidiary jail and the post office were practically destroyed, and almost every other masonry Government building was more or less severely shaken, while at Pabna itself considerable damage was done to public buildings. Private houses suffered more, the residences of the Collector, Junior Civil Medical Officer and District Superintendent of Police having been rendered uninhabitable. Fissures opened, and sand was ejected in various places, not to such an extent as in the Rangpur and Bogra districts. In addition to a large proportion of the wells in the district have become filled with sand and have been rendered useless. Four lives are reported to have been lost in the Sirajganj thana and two in the Shahzadpur thana. The cost of repairing the public buildings has been estimated at Rs. 15,900.

*Cooch Behar State.*—The destruction done to State and private mason buildings in Cooch Behar was enormous. The Superintendent's latest estimate of the cost of repairing the Palace is five lakhs, and he calculates that another 15 lakhs will be required for repairs and re-construction of buildings, including houses on the Maharaja's properties at Darjeeling and Calcutta. The bridges on the Cooch Behar Railway were broken, and the permanent-way was much cut up by fissures. The roads, with their bridges, suffered similarly.

*Dacca District.*—As regards the town of Dacca, the Commissioner wrote the day after the earthquake: "All two-storied houses in the station are badly damaged; one-storied have escaped serious injury." Further inspection shows that several houses had entirely collapsed, and that nearly all the houses occupied by the European residents had been so severely damaged that they had to be partly rebuilt. The public buildings injured were the Dacca College, the collegiate school building, the madrasa buildings, the jail building, the police barracks and subsidiary buildings, the Magistrate's court, the Collector's court, the Small Cause Court, the Judges' court, the registration office, the lunatic asylum and subsidiary buildings, the Lalbagh old fort and buildings, the buildings of the Pikhana (where the khedda elephants are kept), the church, the cemetery, and the building containing the tombs of the old Nawabs in the Husaini Dalan. The Chief Engineer has estimated the damage done at about Rs. 46,000. Ten persons were buried in the debris of fallen houses, but five were extricated alive. At Narainganj, the subdivision court building, the police thana, the Munsif's court building, the telegraph office and the post-office were only slightly cracked; and at Manikganj but little damage was done. At Munshiganj, however, the sub-jail was badly shaken, part of the outer wall coming down.

*Mymensingh District.*—In this district the shock was felt most severely to the north, below the Garo Hills, in the Jamalpur and Netrokona subdivisions. In regard to the head-quarters station, the following extract is quoted from the Collector's report:—

"The Judge's court-house and the English church have been completely destroyed. One of the collectorate buildings, containing the Collector's munshikhana, the nazir's office, land registration and partition offices and two court-rooms, has partially collapsed. The portion still standing is in a dangerous condition and will have to come down. The old collectorate building containing the following offices—Court Sub-Inspector's office, *hajir* (room for under-trial prisoners), Assistant Superintendent's office, Collector's record-room, Magistrate's record-room, munshikhana, and a court-room—is seriously injured and unsafe. There is a gap, about 12 feet long and 4 to 5 feet wide, in the roof of the Collector's record room, where the roof fell in bodily . . . . . The building containing the road cess office is dangerously cracked. The new collectorate building containing the treasury is practically uninjured. Portions of the outer jail wall came down; the two double-storied barracks are badly cracked and unsafe; the *hajir* (under-trial) ward is uninhabitable. The eastern portion of the range of buildings containing the circuit-house and *dak*-bungalow is badly injured; the circuit-house in particular is a ruin. With the exception of my house, which is only slightly damaged, all the European officers' residences are so badly damaged as to be uninhabitable. The zilla school was also so badly damaged that the whole building will have to be dismantled."

The cost of repairs to the Government buildings in the town has been estimated at about Rs. 1,00,000. At Jamalpur the subdivisional residence, the sub-jail, the municipal office and the munsif's court-house were destroyed; at Netrokona the sub-jail was destroyed, and the subdivisional residence and sub-treasury damaged; while at Tangail and Kishorganj the sub-divisional residences and sub-jails were badly damaged. Many police-station buildings and District Board bungalows were also rendered uninhabitable, and roads and bridges injured. The following passage from the Collector's report may be reproduced:—

"I paid a visit to Muktagacha on the 30th June with Mr. Grievess of the Geological Survey of India. I found all the pukka houses of the zamindars in a ruin. The road from Mymensingh to Muktagacha, 10½ miles long, is badly cracked up to Muktagacha. The large bridge of Mantola has sunk at one end, and is only practicable for Government passengers. It will probably be repaired."

"Much damage has been done in various parts of the district. Houses have been half buried in many cases. Sand has, but cracks in the soil, and spread here and there over the surface. This, damage to the standing *aus*. Many wells have run dry owing to the fall of the water level. Many tanks have also had their bottoms raised, and two repaired."

of the Geological Survey of India. The metallic rods in the fifth mile at each end, and to rebuild it. subsidences of the road through the certain amount forced up about the level of the soil."

but I am unable at present to give the total number of tanks and wells which have been rendered unfit for use from this cause."

*Faridpur District.*—In the Sadar station damage was done to the older buildings, chiefly to the jail and criminal record-room, the cost of repairs to public buildings being estimated at Rs. 5,645. The Judge's residence also was rendered uninhabitable. One death occurred in the Goalundo subdivision, where a man was crushed by a falling building.

*Backergunge District.*—At the head-quarters station nearly all the public buildings were injured, but to a very small extent, and slight damage was done at Pirojpur, the cost of the whole of the repairs being estimated at Rs. 2,000. No loss of life was reported.

In the Chittagong Division the damage caused was comparatively trifling, and no deaths were reported. At Comilla, the head-quarters of the Tippera district, the Subordinate Judge's court-house suffered somewhat severely, the walls and roof of the High School were cracked, the church belfry was partially thrown down, four private buildings were damaged, and the railway suffered to some extent. At Brahmanbaria, in the same district, little damage was done to houses; but some old temples collapsed. The cost of repairs to public buildings in the Tippera district has been estimated at Rs. 9,100. At Agartala in Hill Tippera the Raja's palace was almost entirely destroyed. In Noakhali the circuit-house, school and registration office buildings were slightly cracked, and two private buildings were damaged. In Chittagong no damage of importance was done; while at Rangamati in the Hill Tracts the magazine and treasury buildings suffered slightly.

CHITTAGONG DIVISION.

There was no loss of life in any of the districts of the Patna Division, and the damage done to public buildings was of an insignificant character. In three districts, Saran, Champaran and Muzaffarpur, no damage was caused; and in the remaining four districts, Patna, Gaya, Shahabad and Darbhanga, the damage was confined to the cracking of walls and archways of old buildings. In the Patna district the probable cost of repairs, &c., is estimated at Rs. 2,100.

PATNA DIVISION.

Malda, being the easternmost district, suffered more than any other district in the Bhagalpur Division. In the English Bazar and Old Malda Bazar all masonry houses were damaged. The court-house and circuit-house were badly injured. The cost of repairs to public buildings has been calculated at Rs. 13,220, while private buildings are estimated roughly to have suffered to the extent of some Rs. 2,50,000. Six deaths are reported to have been caused in this district by the earthquake. In Purnea the shock was not so severe, and the repairs to public buildings will cost about Rs. 4,100. Private property, however, suffered to a large extent. In Monghyr, considerable damage was done to masonry buildings at the head-quarters station and at Jamalpur, all the double-storied railway houses at the latter place being injured. Much damage was also done in Bhagalpur station, especially to the church and to the central jail. The necessary repairs will cost approximately Rs. 7,400. In the Sonthal Parganas, Rs. 2,620 has been calculated as covering repairs of the damage done, which was slight. Seven deaths have been returned from the Division, six from Malda and one from Bhagalpur.

BHAGALPUR DIVISION.

The damage in Orissa was more or less confined to the Balasore district, where many Government buildings were slightly cracked. In Cuttack one or two cracks occurred, but nothing more; while in Puri and Angul the earthquake was scarcely noticed.

ORISSA DIVISION.

In the Singhbhum, Lohardaga and Hazaribagh districts of Chota Nagpur, some slight damage was done to a limited number of houses, but the shock was comparatively slight in these and in the remaining two districts. No loss of life occurred either in Orissa or in this Division.

CHOTA NAGPUR DIVISION.

## STOCKS OF RICE IN AND AROUND CALCUTTA.

| Total   | ... | 110,049               | 1,49,789 | 32,597 | 44,368 |

*Imports.*—During the period under report, the imports of rice amounted to 25,290 cwts., against 13,839 cwts. in the week ending 21st December 1896. The amount imported from Burma was 22,626, against 1,440 cwts., and that from Balasore 2,664 cwts., against 4,615 cwts. in the corresponding week of last year. The imports of paddy were 563 cwts., against 3,032 cwts., and those of gram and pulses 6,718, against 536 cwts. in the third week of December 1896. The imports of wheat were nil, against 92,642 cwts. in the week ending 21st December 1896.

*Exports.*—In the following statement the total quantity of each kind of food-grain exported by sea during the period under report is compared with that for the corresponding period of 1896 :—

|   | 15th TO 21st DECEMBER |        |         |          |
|---|-----------------------|--------|---------|----------|
|   | 1896.                 |        | 1897.   |          |
| 1   | 2                     | 3      | 4       | 5        |
|   | Cwts.                 | Mds.   | Cwts.   | Mds.     |
| <i>Food-grains.</i>                                 |                       |        |         |          |
| Rice ... ..   | 13,918                | 18,944 | 97,304  | 1,32,442 |
| Paddy ... ..  | 577                   | 785    | 876     | 1,192    |
| Wheat ... ..  | 9,498                 | 12,928 | 1,083   | 1,474    |
| Gram and pulses ... ..                              | 1,578                 | 2,148  | 6,284   | 8,553    |
| Other food-grains, such as jowar, barley, oats, &c. |                       |        | 1,594   | 2,578    |
| Total ...   | 25,571                | 34,805 | 107,441 | 1,46,239 |

The exports of rice from Calcutta to foreign ports rose from 10,687 cwts. to 53,007 cwts. in the period under report. The despatches to Aden, Natal, Muscat, Cape Colony, Zanzibar and Egypt amounted to 25,858 cwts., against nil in the corresponding period of last year. Ceylon took 22,256 cwts. and the United Kingdom 4,233 cwts., against 8,159 cwts. and 2,000 cwts. respectively in the corresponding period of last year. The exports of gram and pulses were insignificant.

As regards Indian ports, the exports of rice during the week under review amounted to 44,297 cwts., against 3,231 cwts. in the corresponding period of last year; Bombay took 19,020 cwts., against 2,238 cwts. and the Madras ports 24,670 cwts., against 250 cwts. in the third week of December 1896. The exports of paddy to Cochin were 876 cwts., against nil in the week ending 21st December 1896. The exports of gram and pulses aggregated 4,881 cwts., against 7,213 cwts., while those of miscellaneous food-grains remained nearly the same as in the corresponding week of the previous year.

Detailed statements showing the sources of supply and the places of destination, both as regards Foreign and Indian ports, are given below:—

*Statement No. I, showing the Imports of Food-grains into Calcutta from Foreign and Indian Ports during the week ending 21st December 1896 and 1897.*

# STATISTICS OF THE SEA-BORNE TRAFFIC OF THE MINOR PORTS IN BENGAL IN FOOD-GRAINS.

No. 6 Statistics.—The following memorandum and statements are published for general information.

STATISTICAL DEPT.,  
The 4th January 1898.

M. FINUCANE,  
Secy. to the Govt. of Bengal.

## Memorandum.

THE comparative statements below give statistics of the import and export trade of the minor ports of Chittagong, Narayanganj, Balasore (including both Balasore and Chandbali), Cuttaek, and Puri during the week ending 14th December 1897, as compared with the trade of the corresponding period of 1896 :—

The imports of rice into Chittagong during the week under report amounted to 3,048 cwts., the whole of which came from Burma, against 477 cwts. in the week ending 14th December 1896. Colombo, Galle, and the Madras ports together received 2,687 cwts. of rice and 1,765 cwts. of paddy, against nil in the corresponding week of last year. Owing to the receipt of 338 cwts. of wheat from Calcutta, the import trade of the Balasore ports rose by 314 cwts.; while the improvement of 15,086 cwts. in the export trade was due to larger consignments of rice to Calcutta, and also to the shipments of 6,972 cwts. of rice to Mauritius, which port took nothing during the corresponding week of 1896. Colombo and Galle, which received 3,014 cwts. of rice from False Point during week ending 14th December 1896, drew nothing in the period under review.

Detailed statements showing the sources of supply and the places of destination, both as regards Foreign and Indian ports, are given below:—

Statement showing the quantities of Food-grains imported into Chittagong from each Foreign and Indian Port during the week ending 14th December 1897, as compared with the trade of the corresponding period of 1896.

| Ports from which imported. | Rice. |       | Paddy. |       | Wheat. |       | Gram and pulse. |       | Other food-grains, such as jowar, barley, oats, &c. |       | TOTAL. |       |

|            |     |     |     |    |                  |
|------------|-----|-----|-----|----|------------------|
| Sadar      | ... | ... | ... | 15 | seers per rupee. |
| Kishanganj | ... | ... | ... | 15 | " "              |
| Araria     | ... | ... | ... | 16 | " "              |

**Malda.**—Rainfall nil. Weather seasonable. Harvesting of winter paddy nearly completed. Gathering of *kalai* continues. *Rabi* crops doing well. Ordinary new rice selling at Balia Nawabganj at 15 seers and at the Sadar station at 14 seers per rupee.

**Senthal Parganas.**—No rainfall except 10 at Jamtara. Dew sufficient. Harvesting of winter rice nearly over. *Rabi* crops doing well. Fodder and water sufficient. No cattle-disease. Prices are—rice 14 to 18 seers and maize 15 to 32 seers per rupee.

**Cuttack.**—Rainfall at Sadar 11, Jajpur 03, Kendrapara 12, Banki 08, False Point 40. Weather seasonable. *Guru sarad* being harvested. *Rabi* being gathered. Condition of cattle generally good. Fodder sufficient. Common rice sells as follows:—

|            |     |     |     |     |         |              |
|------------|-----|-----|-----|-----|---------|--------------|
|            |     |     |     |     | Srs. c. |              |
| Cuttack    | ... | ... | ... | ... | 14 7    | } per rupee. |
| Jajpur     | ... | ... | ... | ... | 18 6    |              |
| Kendrapara | ... | ... | ... | ... | 18 6    |              |
| Banki      | ... | ... | ... | ... | 17 5    |              |

**Balasore.**—Rainfall nil at Sadar. Harvesting of *sarad* continues. *Rabi* crops and sugarcane thriving well. *Dalua* being sown. Price of rice varies from 15 to 20 seers per rupee in the interior. Rice sells at 15 and 18 seers per rupee at Balasore and Bhadrak respectively. Fodder and water sufficient.

**Angul.**—Weather cloudy. Harvesting of rice and pulses continues. Rice selling at 24 and 19½ seers per rupee at Angul and Khondmala respectively.

**Puri.**—Rainfall at Puri 14, Khurda, 29. *Sarad* being reaped. *Rabi* crops promise well. Common rice sells as follows:—

|                                 |     |     |     |     |         |              |
|---------------------------------|-----|-----|-----|-----|---------|--------------|
|                                 |     |     |     |     | Srs. c. |              |
| Puri                            | ... | ... | ... | ... | 13 2    | } per rupee. |
| Khurda                          | ... | ... | ... | ... | 14 2    |              |
| In the interior of the district |     |     |     | 15  | 12      |              |
|                                 |     |     |     | to  | 6       |              |

**Hazaribagh.**—No rain. Weather seasonable. Some locusts; no damage reported yet. Paddy harvest averaged 16 to 20 annas. *Rabi* promises a full crop. Rice sells at 12 to 16 seers per rupee.

**Lohardaga.**—No rain. State of standing crops good. Rice sells at Ranchi 13½ seers, and in the interior from 14 to 21 seers per rupee. Health of cattle good. Fodder and water sufficient. Grain in stock sufficient.

**Palamau.**—No rain. *Rabi* crops doing well, but, want rain. Cattle-disease reported from Latchar thana.

**Manbhum.**—Rainfall nil. Weather seasonable. Prospects of crops on the ground are good. Cutting of paddy over. No cattle-disease reported. Fodder and water sufficient. Average price of common rice as follows:—

|           |                  |              |
|-----------|------------------|--------------|
| Sadar     | { 16 seers (new) | } per rupee. |
|           | { 9½ " (old)     |              |
| Gobindpur | 16 " (new)       |              |

Supply sufficient.

**General Summary.**—There was slight rain in parts of Orissa and South-East Bengal during the week. The harvesting of winter rice is still proceeding. All *rabi* crops are doing well, and the earlier ones are being gathered in some districts. The prospects of the poppy crop in Bihar and of the indigo crop in Central Bengal are favourable. Sugarcane continues to be reported well; it is being cut and pressed in some districts. There was an appearance of locusts in Hazaribagh; no damage is reported. Prices were practically stationary. No cattle-disease is reported except from one thana in Noakhali and one thana in Palamau. Scarcity of fodder is still reported from Kurigram in Rangpur, and of drinking-water from the flooded tracts of Chittagong.

By order of the Lieutenant-Governor of Bengal,

REVENUE DEPARTMENT,

The 4th January 1898.

M. FINUCANE,

Secretary to the Govt. of Bengal.

The mean pressure of the seven days ... .. Inches. 30.016

The average pressure of the corresponding period for 24 years, Surveyor-General's Office ... .. 30.032

The total number of hours of bright sunshine ... .. Hours. 33.4

The maximum possible number of hours of sunshine ... .. 75.1

The mean temperature of the seven days ... .. 67.2

The average temperature of the corresponding period for 24 years, Surveyor-General's Office ... .. 66.8

The extreme variation of temperature ... .. 26.6

The maximum temperature ... .. 79.9

The highest velocity of the wind in one hour ... .. Miles. 7

The mean relative humidity ... .. % 71

The average relative humidity of the corresponding period for 24 years, Surveyor-General's Office ... .. 71

The total fall of rain from 26th December 1897 to 1st January 1898 ... .. Inches. Nil

The average fall of the corresponding period for 24 years, Surveyor-General's Office ... .. 0.01

The total fall from 1st January 1897 to 1st January 1898 ... .. 58.33

The average fall of the corresponding period for 24 years, Surveyor-General's Office ... .. 65.24

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph, and from observations made at 6h., 10h., 16h., and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beekley's anemograph. The mouth of the rain-gauge is one foot above the ground.

N.B.—Total fall from 1st January to 31st December 1897 ... .. Inches. 58.33

The average fall of the corresponding period for 24 years, Surveyor-General's Office ... .. 65.24

o, overcast; g, gloomy; a, dew.

(a) Increase under "coaching" and "other earnings" is due to brisker traffic.

(b) Decrease in weight of goods is due to slack traffic.

(c) Includes 2,828 miles of ballast trains run on open line.

(d) Audited figures up to week ending 6th November 1897.

(e) 598 miles of ballast trains run on open line.

## THE MONSOON OF 1897.

The following report is published for general information.

By order of the Lieutenant-Governor of Bengal,

M. FINUCANE,

Secretary to the Govt. of Bengal.

The 10th January 1898.

## METEOROLOGICAL SUMMARY FOR THE MONSOON PERIOD OF 1897.

THE following remarks are intended to form the usual brief introduction to the rainfall tables and charts, which give full information regarding the rainfall measured during the south-west monsoon months in all parts of the province. Only the more important features of the general atmospheric conditions are discussed, and then only when they show a tendency favourable or unfavourable to rainfall.

The absence of rainfall, which was such a marked feature of the weather conditions prevailing throughout 1896, continued for only a short time at the beginning of the present year. In January very little rain fell, except in the early days of the month, when a few light showers occurred in the western districts owing to a cold weather disturbance which had begun before the end of December 1896. The average fall for the whole month was less than .1 inch, except in Bihar and Chota Nagpur, in the former of which it was .15 inch and in the latter .33 inch.

From the beginning of February a change for the better was apparent, the shallow depressions, to which the cold weather rainfall is due, became more frequent, and were attended by continuous cloudy weather for days at a time over the whole province. General rainfall occurred, but the distribution was less uniform than usual, owing to a peculiarity in the movement of the depressions. Instead of passing eastwards across the centre of the province, they took a more southerly course over Orissa and became diffused over the Bay, a circumstance which resulted in heavier rainfall than usual in Orissa and less than usual over the greater part of Bengal proper. This peculiarity was maintained almost throughout the hot weather, as it was not till May that it began to give way. In February the excess rainfall was 1.9 inches in Orissa, .75 inch in Chota Nagpur and less than .1 inch in Bihar, while in Bengal proper defect varied from .4 inch in South West Bengal to .66 inch in East Bengal.

In March weather continued to be more unsettled than usual. There were four occasions of disturbed weather owing to passing depressions, and on at least two of these occasions there were present, in a well marked form, the peculiarities noticed as occurring in February. The two most important of these were (1) the southward tendency of the course followed by the depressions and (2) the continued cloudy weather which accompanied their passage eastward. In consequence the average cloud amounts were above the normal over the whole province by from 10 to 20 per cent., except at Darjeeling, where there was much less cloud than is usual in March. While the cloud prevailed, light showers were frequent in all districts, and the total fall for the month was everywhere above the average. Lower Bengal received less compared with the normal than any other part of the province, whereas in Orissa more than three times the normal amount fell. Bihar and Chota Nagpur received between two and three times their normal falls for March. The unusual displacement of the depressions towards the south brought Orissa more under their influence, and as in the end they disappeared over the Bay, the northerly winds which set in over Lower Bengal were unfavourable for the development of the thunderstorms to which rainfall at that season of the year is due.

The heavier rainfall in North Bengal appears to be connected with the peculiarity noticed above in the direction of motion of the depressions. While the shallow depressions were approaching the west of the province, as usual from the west, pressure fell in North Bengal and a local depression formed there. These local depressions were not of long duration, but they gave rise to rain earlier than in other districts. That fall of pressure was soon afterwards followed by a rapid rise which spread south-westwards and meeting the advancing depression from the west caused it to take a more southerly course over Orissa towards the north of the Bay.

During April there were three periods of disturbed weather, and on one of these the peculiarity noticed above was present. The depressions were checked, in their eastward advance, over the western districts, so that rainfall remained below the normal over the greater part of Bengal proper, especially in East Bengal, where there was defect of 2.4 inches. In Assam rainfall was much less than in March, Silchar receiving only 2.8 and Dhubri 1.23 inches. The change began about the middle of April which indicated the commencement of the pre-monsoon period, during which disturbances are no longer looked for from the west. The moist air from the Bay had been forcing its way southwards over Burma and began to affect the amount of rainfall in Assam as shown by the large increase in the total fall during May, especially at Dhubri, where it rose from 1.23 inches in April to 34.88 inches in May. The effect of the change was also felt over the whole province, as during that month North Bengal was the only division which received more than the normal amount, and in East Bengal the defect was relatively less than it had been during the three previous months.

Weather was unusually settled over the Bay and no storm occurred. One shallow depression developed in the east in the early part of the month, and another, also of no great depth, appeared about the middle of the month. They both moved over Burma, but the second was afterwards shown in a shallow form in Bengal, and caused strong southerly winds for some days during which rainfall was fairly general in the eastern districts.

Very abnormal conditions prevailed in June almost throughout the month. Weather remained settled over the Bay, only one small storm occurring about the middle of the month. The causes of the unsettled weather appeared to come from the west, as in the cold season, rather than from the south or south-east the usual direction at that time of the year. Several times during the first half of the month a slight depression passed across the province from the west causing general rain in almost all districts. The most marked of these began about the 11th and was accompanied by weather similar to what prevails during the monsoon months. Its abnormal character, however, was shown by its beginning in the north of the province and from there extending southwards.

A further instance occurred towards the end of the month, immediately before the commencement of the very marked break in the rains which continued for about a week at the end of June and the beginning of July. A shallow depression entered the north-west of the province about the 24th and moving eastward developed into one of moderate depth over the eastern districts. Ordinary monsoon weather had prevailed from about the middle of the month till the 24th, and the monsoon current was probably checked over Bihar by the eastward movement of that depression, a circumstance to which the very heavy rain in South Bihar on the 24th and 25th was no doubt due. This rainfall was so unusually heavy that over a small area extending westward from Patna, the excess falls for June were from 20 to 30 inches above the normal.

After the formation of the low pressure area over the east of the province, the monsoon current altogether ceased and dry westerly winds with high temperature prevailed till after the beginning of July. The renewal of monsoon weather was due to a shallow depression which developed over the north of the Bay. The disturbance was very feeble while over the Bay and was of no importance except from the fact that it brought about a renewal of the rains. The general rain which followed its westerly movement was maintained in the north of the province by a shallow land depression which formed in North Bengal shortly afterwards and before moving westward remained fairly stationary for two or three days. During the remaining part of July the monsoon current was weak owing to the high pressure over North Bengal.

Orissa was the only division, which on an average received more than the normal amount for July, and that was due to heavy falls near the coast, excess being 1.33 inches. In the other divisions defect was about 2 inches except in East and North Bengal, where it was 3.6 and 4.1 inches respectively. Notwithstanding the marked break at the beginning of the month, and the partial one towards the end when only scattered showers were falling, the number of rainy days, taking a rainy day as one on which a tenth of an inch or more has fallen, was not far short of the normal. The greatest deficiency was four days in South-West Bengal. This shows that the rainfall was well distributed during the second and third weeks and was not due to any unusually heavy falls.

The uniform distribution of the rainfall which was first noticeable during July became one of the most prominent features of the remaining months of the monsoon season. The weather remained very settled over the Bay till towards the end of September, so that no depressions of any depth passed over any part of the province. But shallow depressions occurred not unfrequently both at the head of the Bay and over the province and to these the practically normal falls were due.

During August weather was of an unusually uniform character, cloudy and showery in all districts, but not entirely without variations. There were two periods of comparatively heavy and two of comparatively light rainfall during the latter of which only scattered showers fell in places. In the first and third weeks, when rainfall was more plentiful, there was low pressure over the north of the province. The steep pressure gradient which at the same time prevailed over the Bay caused a strongish monsoon, and in consequence a free supply of moist air was moving over the land. The precipitation was partly maintained by the irregular pressure changes which occurred from day to day and gave rise to the variations in the wind circulation to which, during settled weather, rainfall is largely due.

During the second and fourth weeks when rainfall was more scanty, the area of lowest pressure was transferred southward in the first case to Orissa and in the second to the Circars. A steady easterly current prevailed over the province, and though unfavourable for rainfall at inland stations it only partially prevented it, as rainfall was generally recorded at more than half the registering stations.

On two occasions there were signs of shallow depressions. The first probably crossed the north of the Bay but did not show as a definite depression till it was over Orissa on the 7th. The second began on the 17th with a moderate fall of pressure in Burma and a brisk rise in Bihar. It was very indistinct during the two following days, but moving north-westward across the north of the Bay into Bengal it became better defined in Bihar on the 19th. Though this very shallow depression did not cause the renewal of general rain, it was the main cause of the continuance of the rainfall till after the end of the third week, and the heaviest falls of the month were during its passage across Bengal and Bihar, especially the latter on the 19th.

East Bengal received during August 3.44 inches more than the normal, South-west Bengal 1 inch and in the other divisions there was defect varying from a third of an inch, in North Bengal to 1 inch in Chota Nagpur.

The uniform character of the rainfall was not so marked in September as North and East Bengal received 30 per cent. more than the normal, and Orissa and Chota Nagpur 20 to 30 per cent. less. This was partly due to a less settled state which began to appear over the Bay. The change did not become established till towards the end of the month when the first storm of the season occurred. It was a small but intense storm which crossed the Bay with unusual rapidity towards the Ganjam coast, where it gave rise to strong winds for a few hours in the early morning of the 24th. A week afterwards another storm began and in the early days of October developed into a disturbance of wide extent and low rate of motion. The centre of this second depression also crossed the coast near Gopalpur, but soon afterwards it turned towards the north and passing rapidly over Orissa, Chota Nagpur and Bihar caused general rain, especially in the northern districts when close to the hills.

Besides these two disturbances and previous to them two shallow depressions developed, the first in Lower Bengal, the second in the south of the Bay. Neither of these caused rainfall to any extent over the province except during the early stages of the first which was forced southwards over Orissa by a rapid rise of pressure beginning in the north. The influence of the second was confined to the south of the Bay.

The total rainfall during September was uniform over a great part of the province, and it was only in the extreme east and north where much irregularity was shown. When uniform the falls were generally about 8 inches, and there was only one well defined tract of country where they were below 5 inches. It included the greater part of the Patna district and parts of Gaya, Shahabad and Saran.

After the general heavy rain caused during the first few days of October by the disturbance referred to above settled weather set in and continued till about the middle of the month when another disturbance began over the Bay. It was a fairly severe storm while in the east of the Bay judging by the strong winds it caused at Diamond Island, but during its westward movement the depression became diffused and after some days disappeared without any definite centre having reached the west coast. Though it did not cause stormy weather in the north of the Bay there was much cloud and rain over a wide area including the whole of Bengal, the falls being most heavy and general in the western districts.

The period of the existence of this disturbance may be said to be between the 12th and 17th, though there were signs of a low pressure area in the south-west of the Bay for two or three days more. These signs, however, ceased as the third disturbance of the month began to affect weather in the east of the Bay. It afterwards moved into the north-east angle of the Bay and crossing the Chittagong coast caused much destruction to life and property in that division. There was very heavy rain over the whole of the division, but the storm was of too limited extent, and too intense within the central area to have much influence on weather conditions in other parts of the province.

As the rainfall during the first and third weeks was more heavy and continuous than is usual in October, every district in the province received considerably more than the normal fall, more especially in the west. The average excess for the Orissa division was 4.96 and for Bihar 4.32 inches. Chota Nagpur and South-West Bengal each received on an average nearly 3 inches more than the normal amount, North Bengal about 2.5 inches and East Bengal 1.42 inches. The average number of rainy days in Chota Nagpur and Bihar was double the usual number, and in most other districts 50 per cent. in excess.

After the disturbing influence of the cyclone of 24th October ceased, settled weather prevailed in all districts with an almost entire absence of rainfall.

Though slightly below the normal during the monsoon season on an average for the whole province, the rainfall from the beginning of the year to the end of October is somewhat in excess. In South-West Bengal, Orissa and Bihar excess varies from 3 to 8 per cent. In the other divisions there has been defect varying from 2 to 5 per cent. The average fall for the monsoon seasons in 1895 and 1896 was 51.3 inches, and in the past season it was 58.79 the normal being 59.12 inches.

The main features of the rainfall distribution during the present year are:—

1. The period of drought came to an end in January, after which rainfall was generally plentiful, especially in the south-western districts.

2. During the greater part of the monsoon season, falls were well distributed and seldom very heavy owing to the rare occurrence of cyclonic storms in the Bay of Bengal.

3. From the end of September a period of unsettled conditions set in over the Bay, with the result that rainfall was much more heavy than usual over the whole province.

4. Monsoon weather ceased on the 22nd in North Bengal and Bihar, on the 23rd in Orissa and Chota Nagpur, and on the 25th in the extreme south-east.

Actual Rainfall in inches during 1897.

**Imports.**—During the period under report, the imports of rice amounted to 36,691 cwts., against 43,953 cwts. in the ten days ending 31st December 1896. The amount imported from Burma was 6,229, against 26,344 cwts., and that from Balasore 30,456 cwts., against 77,482 cwts. in the corresponding period of last year. The imports of paddy were 6,518 cwts., against 4,713 cwts., and those of gram and pulses 3,126 cwts., against 9,099 cwts. in the corresponding period of 1896. The imports of wheat and miscellaneous food-grains were nil against 219,883 cwts., and 12,348 cwts. respectively in the ten days ending 31st December 1896.

**Exports.**—In the following statement the total quantity of each kind of food-grains exported by sea during the period under report is compared with that for the corresponding period of 1896 :—

|   | 22ND TO 31ST DECEMBER |                 |                |                 |

| <b>Total ...</b>                                    | <b>103,294</b>        | <b>1,40,595</b> | <b>277,268</b> | <b>3,77,392</b> |

The exports of rice from Calcutta to foreign ports rose from 79,044 cwts. to 195,531 cwts. in the period under report. The despatches to Ceylon rose from 10,610 cwts. to 88,484 cwts., and those to Arabia and Germany from 6,254 cwts. and 15,047 cwts. to 14,117 cwts. and 33,982 cwts., respectively, during the ten days ending 31st December 1897, while the United Kingdom took only 2,018 cwts. against 15,537 cwts., and Cape Colony 8,720 cwts., against 11,564 cwts. in the corresponding period of 1896. The exports of gram and pulses and other food-grains were insignificant.

As regards Indian ports, the exports of rice during the period under review amounted to 67,959 cwts., against 14,534 cwts. in the corresponding period of last year; Bombay received 26,587 cwts., against 13,638 cwts. in the corresponding period of 1896, but the Madras ports received 38,301 cwts. of rice, 2,532 cwts. of paddy, against nil in the ten days ending 31st December 1896. The exports of gram and pulses aggregated 5,835 cwts., against 2,960 cwts., while those of miscellaneous food-grains remained nearly the same as in the corresponding period of the previous year.

Detailed statements showing the sources of supply and the places of destination, both as regards Foreign and Indian ports, are given below:—

Statement No. I, showing the Imports of Food-grains into Calcutta from Foreign and Indian Ports from the 22nd to 31st December 1896 and 1897, both days inclusive.

| Ports.   |                                      | Rice.            | Paddy.         | Wheat.  | Gram and pulse. | Other food-grains, such as jowar, barley, oats, &c. | Total.            |

STATISTICS OF THE SEA-BORNE TRAFFIC OF THE MINOR PORTS  
IN BENGAL IN FOOD-GRAINS.

No. 36 Statistics.—The following memorandum and statements are published for general information.

STATISTICAL DEPT.,  
The 11th January 1898.

M. FINUCANE,  
Secy. to the Govt. of Bengal.

## Memorandum.

THE comparative statements below give statistics of the import and export trade of the minor ports of Chittagong, Narayanganj, Balasore (including both Balasore and Chandbali), Outtaek, and Puri during the week ending 21st December 1897, as compared with the trade of the corresponding period of 1896:—

Owing chiefly to smaller receipts of gram and pulses from Calcutta, the import trade of Chittagong declined by 249 cwts., while Galle and Colombo together received 1,931 cwts. of rice and 444 cwts. of paddy, against nil in the corresponding period of 1896. The improvement of 13,452 cwts. in the export trade of the Balasore ports was mainly due to the consignments of 22,790 cwts. of rice to Mauritius, Calcutta, and the Madras ports, against 7,903 cwts. only during the week ending 21st December 1896. Colombo received 11,701 cwts. of rice from False Point, against nil in the third week of December 1896, and Mauritius, which took 14,113 cwts. of rice from that port in the week ending 21st December 1896, drew nothing during the period under review.

Detailed statements showing the sources of supply and the places of destination, both as regards Foreign and Indian ports, are given below:—

Statement showing the quantities of Food-grains imported into Chittagong from each Foreign and Indian Port during the week ending 21st December 1897, as compared with the trade of the corresponding period of 1896.

| Ports from which imported. | Rice. |       | Paddy. |       | Wheat. |       | Gram and pulse. |       | Other food-grains, such as jowar, barley, oats, &c. |       | TOTAL. |       |       |

**EXPORTS OF FOOD GRAINS BY THE EAST INDIAN RAILWAY.**

*No. 138 Statistics.*—The following statement shows the quantity of rice and other food-grains exported by the East Indian Railway from Calcutta and Howrah during the period from 1st January to 31st December 1897, both days inclusive, to have been 1,03,49,950 maunds. The destination of 1,01,36,772 maunds is specified. Of this quantity 33,09,376 maunds were carried to the North-Western Provinces and Oudh, 44,48,846 maunds to stations in Bengal, 15,54,663 maunds to the Central Provinces, and the rest, 8,23,888 maunds to other provinces. In the last week of the period, 7,632 maunds were exported to the North-Western Provinces and Oudh, and 2 maunds to Bihar.

STATISTICAL DEPARTMENT,  
The 11th January 1898.

M. FINUCANE,  
Secy. to the Govt. of Bengal.

Statement showing the quantities of rice and other food-grains exported from Howrah and Calcutta (Chitpur, Kidderpore Docks, and Port Trust Railway) by the East Indian Railway, from 1st January to 31st December 1897.

**EXPORTS OF FOOD-GRAINS BY THE EASTERN BENGAL STATE  
RAILWAY.**

*No. 39 Statistics* — The following statement shows the quantity of rice and other food-grains exported by the Eastern Bengal State Railway from Sealdah and Calcutta during the period from 1st January to 25th December 1897, both days inclusive, to have been 13,77,325 maunds. The destination of 13,72,029 maunds is specified. Of this quantity, 10,60,162 maunds were carried to stations in Bengal Proper, and 94,438 maunds to Bihar and Chota Nagpur, 45,935 maunds to the North-Western Provinces and Oudh, 1,64,561 maunds to Assam, and the rest (7,933 maunds) to other provinces.

STATISTICAL DEPARTMENT,

*The 11th January 1898.*

M. FINUCANE,

*Secretary to the Govt. of Bengal.*

Statement showing the quantities of rice and other food-grains exported from Seaklah and Odcutta (Port Trust Railways Chitpur and Kidderpore Docks), by the Eastern Bengal State Railway, from 1st January to 25th December 1897.

WEATHER AND CROP REPORT.

For the week ending the 10th January 1898.

**Burdwan.**—Rainfall nil. Weather seasonable. Harvesting of *aman* crop is fast approaching completion. *Rabi* crops promise well. Fodder and water sufficient. Common rice selling as follows:—

|          |     |     | Srs. | Srs.     |              |
|----------|-----|-----|------|----------|--------------|
| Sadar    | ... | ... | ...  | 11 to 13 | } per rupee. |
| Kalna    | ... | ... | ...  | 10 to 13 |              |
| Katwa    | ... | ... | ...  | 12 to 13 |              |
| Kaniganj | ... | ... | ...  | 13 to 14 |              |

**Birbhum.**—No rain. Weather cold. Harvesting of *aman* continues. Standing crops doing well. Price of common rice at Sadar 12 seers 12 chittaks, and at Rampur Hat 14 seers per rupee. Fodder sufficient.

**Bankura.**—No rain. Weather seasonable. Threshing of *aman* continues. Rain would benefit *rabi* crops, which promise a good outturn. No cattle-disease. Fodder sufficient. Common rice sells at 15 seers per rupee both at Sadar and Vishnupur.

**Midnapore.**—No rain. Reaping of paddy almost complete. Prospects of *rabi* crops, indigo, and sugarcane good. Cattle-disease reported from thanas Salboui and Jhargram. Price of common rice:—

|        |     |     |     | Srs.     |              |
|--------|-----|-----|-----|----------|--------------|
| Sadar  | ... | ... | ... | 12       | } per rupee. |
| Tamluk | ... | ... | ... | 10½      |              |
| Ghatal | ... | ... | ... | 12 to 15 |              |
| Contai | ... | ... | ... | 14       |              |

**Hooghly.**—No rain. Harvesting of *aman* paddy approaching completion. Harvesting of pulses commenced. Common rice sells from 10½ to 13½ seers per rupee. Cattle-disease reported from Hooghly town.

**24-Parganas.**—Rainfall nil. Weather fine and cool. Harvesting of *aman* paddy, mustard, and *kalai* still going on. No cattle-disease. Fodder and water sufficient. Common rice sells as follows:—

|                 |     |     |     | Srs.      |              |
|-----------------|-----|-----|-----|-----------|--------------|
| Sadar           | ... | ... | ... | 9½ to 13½ | } per rupee. |
| Barasat         | ... | ... | ... | 14        |              |
| Basirhat        | ... | ... | ... | 13        |              |
| Diamond Harbour | ... | ... | ... | 11½       |              |

**Nadia.**—No rain. Weather very cold. Harvesting of *aman* paddy nearly finished. Prospects of standing *rabi* crops favourable. Common rice is selling at 10½ to 14 seers per rupee. Fodder and water sufficient. Sporadic cases of cattle-disease in thana Tehatta.

**Murshidabad.**—No rain. Weather seasonable. Harvesting of *aman* and *kalai* still going on. *Rabi* crops and sugarcane doing well. Prospects of mulberry and indigo favourable. Fodder sufficient. No cattle-disease reported. Common rice sells as follows:—

|          |     |     |     | Srs. |              |
|----------|-----|-----|-----|------|--------------|
| Sadar    | ... | ... | ... | 13   | } per rupee. |
| Jangipur | ... | ... | ... | 15   |              |
| Kandi    | ... | ... | ... | 15   |              |

**Jessore.**—No rain. Weather seasonable. Harvesting of *aman* nearly over; outturn good. Condition of *rabi* and other standing crops continues favourable. Fodder and water sufficient. No cattle-disease. Common rice sells as follows:—

|         |     |     |     | Srs.      |              |
|---------|-----|-----|-----|-----------|--------------|
| Jessore | ... | ... | ... | 12 to 13  | } per rupee. |
| Jhenida | ... | ... | ... | 12½       |              |
| Magura  | ... | ... | ... | 12 to 12½ |              |
| Bangaon | ... | ... | ... | 13 to 15  |              |

**Khulna.**—No rain. Weather seasonable. Cultivation of *boro* (spring rice) commenced. Harvesting of *aman* going on. Prospects excellent. Water and fodder available. Common rice sells as follows:—

|          |     |     |     | Srs.     |              |
|----------|-----|-----|-----|----------|--------------|
| Sadar    | ... | ... | ... | 12 to 16 | } per rupee. |
| Bagirhat | ... | ... | ... | 13½      |              |
| Satkhira | ... | ... | ... | 16       |              |

**Rajshahi.**—No rain. Prospects of crops good. Harvesting of *aman* paddy almost completed. Condition of cattle good. Fodder and water available. Common rice sells from 8 to 16 seers per rupee.

**Dinajpur.**—Rainfall nil. Weather cold. Harvesting of winter rice nearly finished. Condition of *rabi* crops good. No cattle-disease. Fodder and water ample. Price of common rice 12½ seers per rupee.

**Jalpaiguri.**—Rainfall nil. Weather seasonable. Harvesting of winter rice still continues. Preparation of land for *bhadai* paddy commenced. Prospects of standing crops favourable. Fodder and water sufficient. Common rice sells from 10 to 15 seers per rupee.

**Darjeeling.**—Rainfall 15. *Hills*—Wheat, barley, *phaphur*, and *tori* progressing well. *Terai*—*Haimanti* paddy being reaped; potatoes, mustard, and tobacco doing well. Prospects good. Price of coarse rice in the hills 8 to 11 seers, and in the Terai 12 to 15 seers per rupee. *Bhutta* sells from 18 to 32 seers per rupee.

**Rangpur.**—No rain. Harvesting of *aman* continues, and that of mustard commenced in places. *Rabi* crops doing well. Common rice selling at 11 to 15 seers per rupee. Fodder and water sufficient except at Kurigram, where they are reported scarce in places.

**Bogra.**—Rainfall nil. Harvesting of winter rice in progress. Oilseeds and pulses doing well. Pressing of sugarcane commenced. Fodder and water ample. Common rice sells from 10½ to 13½ seers per rupee.

**Pabna.**—No rain. Weather seasonable. Prospects of crops good. Common rice sells from 10 to 12½ seers per rupee. Fodder sufficient.

**Dacca.**—Rainfall nil. Weather seasonable. Harvesting of *aman* completed; outturn excellent. Fodder available. No cattle-disease. Common rice 11 to 14 seers per rupee.

**Mymensingh.**—Rainfall nil. Weather cold. *Rabi* crops doing well. Common rice 8½ to 12 seers per rupee.

**Faridpur.**—No rain. Weather seasonable. Prospects of crops good. Rice 11 to 12 seers per rupee.

**Backergunge.**—Rainfall nil. Weather seasonable. Prospects of crops good. Common rice sells from 9 to 14 seers per rupee.

**Tippera.** No rain. Weather seasonable. Harvesting of *aman* over. Sowing of *rabi* crops still continues in places. Transplantation of *boro* going on. Price of rice 9 to 13 seers per rupee.

**Noakhali.**—Rainfall nil. Prospects of standing crops good. No cattle-disease. Fodder and water available. Price of common rice 11 to 14 seers per rupee.

**Chittagong.**—No rain. Harvesting of *aman* nearly completed. *Rabi* sowings continue. Prospects fair. Fodder and water scarce in the flooded area; elsewhere sufficient. *Rice* sells at 13 seers per rupee on an average.

**Patna.**—No rain. Harvesting of paddy continues. *Rabi* and poppy doing well. Prices almost stationary. In Patna common rice (new) selling at 15½ seers per rupee. Fodder and water for cattle sufficient.

**Gaya.**—No rain. Harvesting of paddy and pressing of sugarcane continue. *Rabi* and poppy doing well. Common rice selling at 14½ seers per rupee. Fodder and water-supply sufficient.

**Shahabad.**—No rain. Weather seasonable. *Rabi* and poppy promise well. Pea and linseed flowering. Pressing of sugarcane commenced. Prices stationary. Fodder and water sufficient.

**Saran.**—No rain. Weather cold. Harvesting of paddy finished; threshing in progress. *Rabi* and poppy excellent. Fodder and water sufficient. Average prices are—common rice 14·12 seers against 8·13 seers last year; *makai* 19·1 seers against 10·3 seers; wheat 11·8 seers; barley 15·4 seers; gram 11·3 seers; arhar 10·3 seers.

**Champaran.**—No rain. Some much wanted now, but prospects of poppy and *rabi* crops favourable on account of moisture in the soil. Prices stationary or slightly fallen. Common rice and maize sell at 15 and 20½ seers per rupee respectively, against average of 17½ and 22½ seers.

**Muzaffarpur.**—Rainfall nil. Prospects of crops continue good. Prices are—common rice 13 to 15 seers, wheat 10 to 11½ seers, barley 20 seers, *makai* 20 seers, gram 10 to 11 seers, and *rahar* 10 to 10½ seers per rupee.

**Darbhanga.**—No rain. Prospects of standing crops good. Harvesting of paddy nearly finished. Fodder and water available. Common rice sells at 14 seers per rupee at Sadar.

**Monghyr.**—No rain. Weather seasonable. Harvesting of winter rice still going on. *Rabi* crops doing well. Poppy prospects continue fairly good; the late-sown plants are still stunted and small, and a good shower would improve them. No cattle-disease. Common rice sells as follows:—

|               |     |     |                                  |

| Puri                            | ... | ... | ... | Srs. o. | } per rupee. |
| Khurda                          | ... | ... | ... | 13 2    |              |
|                                 |     |     |     | 14 7    |              |
| In the interior of the district | ... | ... | ... | 14 7    |              |
|                                 |     |     |     | to      |              |
|                                 |     |     |     | 17 0    |              |

**Hazaribagh.**—Rainfall nil. Weather seasonable. Prospects of *rabi* crops continue favourable. Common rice selling from 12 to 15 seers per rupee.

**Lohardaga.**—No rain. State of standing crops good. Rice sells at Ranchi 13 seers, and in the interior from 13 to 24 seers per rupee. Health of cattle good. Fodder and water sufficient. Grain in stock sufficient.

**Palamau.**—Rainfall nil. Weather seasonable. *Rabi* crops doing well. Cattle-disease prevalent. Rice sells at 13½ seers per rupee.

**Manbhum.**—Rainfall nil. Weather seasonable. Prospects of crops on the ground are good. No cattle-disease reported. Fodder and water sufficient. Average price of common rice :—

|           |                    |              |
|-----------|--------------------|--------------|
| Sadar     | { 17 seers (new) } | } per rupee. |
| Gobindpur | { 9½ „ (old) }     |              |

Supply sufficient.

**General Summary.**—There was slight rain at Darjeeling, but none elsewhere in the Province during the week. The general prospects of all crops continue favourable. The harvesting of winter rice is being rapidly completed, and that of pulses and other early *rabi* crops is in progress. A little rain is required for the *rabi* crops in a few districts, and for the late-sown poppy plants in Monghyr. The cultivation of *boro* or spring rice has begun. Prices show a tendency to fall. Cattle-disease is reported from parts of Midnapore, Hooghly, Nadia, Purnea, the Sonthal Parganas, and Palamau. Fodder and water are everywhere sufficient except in the flooded tracts of Chittagong and at Kurigram in Rangpur.

By order of the Lieutenant-Governor of Bengal,

REVENUE DEPARTMENT,

M. FINUCANE,

The 11th January 1898.

Secretary to the Govt. of Bengal.

Secretary to the Govt. of Bengal.

**Abstract of the Results of Meteorological Observations taken at the Alipore Observatory in the month of December 1897.**

|  | Inches. | Date.            | Hour. |
|--|---------|------------------|-------|
| The mean pressure of the month ... ..  | 30.021  |                  |       |
| The average pressure of December from 24 years' registers ...  | 30.027  |                  |       |
| The highest pressure in the month ... ..   | 30.180  | 24th             | 10    |
| The lowest pressure in the month ... ..  | 29.878  | 31st             | 16    |
| The range of pressure ... ..   | 0.302   |                  |       |
| The total number of hours of bright sunshine during the month  | 251.9   |                  |       |
| The maximum possible number of hours of sunshine ...   | 332.8   |                  |       |
| °  |         |                  |       |
| The mean temperature of the month ... ..   | 65.1    |                  |       |
| The average temperature of December from 24 years' registers   | 65.0    |                  |       |
| The highest temperature in the month ... ..  | 78.9    | 28th             |       |
| The lowest temperature in the month ... ..   | 49.0    | 17th             |       |
| The range of temperature during the month ... ..   | 29.9    |                  |       |
| The mean daily range of temperature ... ..   | 19.9    |                  |       |
| The greatest range of temperature in one day ... ..  | 23.3    | 18th             |       |
| Per cent.  |         |                  |       |
| The mean humidity of the month ... ..  | 84      |                  |       |
| The average humidity of December from 24 years' registers ...  | 71      |                  |       |
| Inches.  |         |                  |       |
| The mean vapour tension of the month ... ..  | 0.449   |                  |       |
| The average vapour tension of December from 9 years' registers   | 0.476   |                  |       |
| The mean cloud proportion of the month ... ..  | 1.52    |                  |       |
| The average cloud proportion of December from 20 years' registers  | 1.57    |                  |       |
| Inches.  |         |                  |       |
| The total rainfall of the month ... ..   | Nil.    |                  |       |
| The total rainfall indicated by a Beckley's self-registering rain-gauge (mouth of the gauge about 52 feet above the ground)    | Nil.    |                  |       |
| The average fall of December from 48 years' registers ...  | 0.23    |                  |       |
| The greatest fall in 24 hours ... ..   | Nil.    |                  |       |
| Days.  |         |                  |       |
| The number of rainy days in the month ... ..   | Nil.    |                  |       |
| The average number of rainy days in December from 24 years' registers  | 1       |                  |       |
| °  |         |                  |       |
| The mean maximum equilibrium temperature of solar radiation during the month ... ..  | 126.0   |                  |       |
| The mean difference of sun and air temperatures ... ..   | 50.3    |                  |       |
| The greatest sun temperature ... ..  | 132.4   | 5th              |       |
| The greatest excess of sun over air temperature ... ..   | 55.9    | 5th              |       |
| The mean temperature of the nocturnal radiation thermometer on woollen cloth ... ..  | 48.5    |                  |       |
| The mean depression of the nocturnal radiation thermometer below the minimum air temperature at 4 feet above the ground ... .. | 7.6     |                  |       |
| The greatest depression of the nocturnal radiation thermometer below the minimum air temperature ... ..                        | 10.2    | 18th             |       |
| Miles.   |         |                  |       |
| The mean movement of the wind per day ... ..   | 35.2    |                  |       |
| The greatest movement of the wind in one day ... ..  | 72.0    | 15th             |       |
| The greatest movement of the wind in one hour ... ..   | 10.0    | 15th 9 to 10 am. |       |
| The number of hours with winds from each of the 8 points—  |         |                  |       |

N. 263, N.E. 49, E. 2, S.E. 1, S. 3, S.W. 1, W. 16, N.W. 106, Calm 303.

The results of observations at the Alipore Observatory are not rigorously comparable with the registers of past years (at the Park Street Observatory). The barometer is about 3 feet higher at Alipore, and, other things being equal, reads therefore .008 lower. The diurnal range of temperature is also greater at Alipore, and the mean temperature apparently about 2.3° lower; and, finally, the thermometer which furnished the record of temperature at the Surveyor-General's Office during 20 years and upwards is found to read 0.6 higher than the Kew standard thermometer, which is the standard of reference at the present Observatory.

The mean pressure of the seven days ... 30.020

The average pressure of the corresponding period for 24 years, Surveyor-General's Office ... 30.022

The total number of hours of bright sunshine ... 63.1

The maximum possible number of hours of sunshine ... 75.3

The mean temperature of the seven days ... 62.4

The average temperature of the corresponding period for 24 years, Surveyor-General's Office ... 67.5

The extreme variation of temperature ... 30.7

The maximum temperature ... 79.1

The highest velocity of the wind in one hour ... 7

The mean relative humidity ... 69

The average relative humidity of the corresponding period for 24 years, Surveyor-General's Office ... 72

The total fall of rain from 2nd to 8th January 1898 ... Nil

The average fall of the corresponding period for 24 years, Surveyor-General's Office ... 0.09

The total fall from 1st to 8th January 1898 ... Nil

The average fall of the corresponding period for 24 years, Surveyor-General's Office ... 0.09

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph, and from observations made at 6h., 10h., 16h., and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

N.B.—Total fall from 1st January to 31st December 1897 ...

The average fall of the corresponding period for 24 years, Surveyor-General's Office ... 65.24

a, dew; = fog.

[illegible]

CALCUTTA,  
The 11th January 1858.

There are no separate lands for sugarcane on the Song Canal. All leased fields of that crop now come under one of the other heads.

T. H. CLOWES,  
Under-Secy. to the Govt. of Bengal.

CIRCULAR AND EASTERN CANALS.

### LIBERALITY OF BABU MOHAN LAL KHETRI, OF SULKIA.

No. 256M., dated Calcutta, the 17th January 1898.

From—The Secretary to the Government of Bengal, Municipal Department,  
To—The Commissioner of the Burdwan Division.

I AM directed to acknowledge the receipt of your letter No. 9M., dated the 6th January 1898, reporting that Babu Mohan Lal Khetri, of Sulkia, in the district of Howrah, has made a further contribution of Rs. 15,000 towards the construction of a bathing ghat at Sulkia, in Howrah, in addition to the sum of Rs. 15,179 already given by him for this purpose.

2. In reply, I am to request that you will be so good as to convey to the donor the thanks of the Lieutenant-Governor for this further act of liberality and public spirit on his part.

3. This letter will be published in the *Calcutta Gazette*.

INDIAN FAMINE COMMISSION.

*The 17th February 1898.*—The following is published for general information.

M. FINUCANE,  
*Secretary to the Govt. of Bengal.*

NOTICE.

NOTICE is hereby given to the public that the Commission appointed by the Government of India to formulate for future guidance the lessons taught by the famine experience of 1897, have now assembled at Calcutta and will sit at the places named below, on or about the dates mentioned against each, for the purpose of hearing the evidence of witnesses from Bengal:—

|          |     |     |                               |
|----------|-----|-----|-------------------------------|
| Bankipur | ... | ... | 27th January to 2nd February. |
| Calcutta | ... | ... | 3rd to 7th February.          |

2. The Commission desire to make it known that they are ready to receive the evidence of witnesses who consider themselves qualified and desire to give evidence touching the subject-matter of the Commission's inquiry. The points referred to the Commission for inquiry and report are those mentioned below and all evidence must be strictly confined to those subjects:—

- (a) Departures from the prescriptions of the Bengal Famine Code which have occurred in the Province during the recent famine.
- (b) The degree of success which has attended the measures adopted, considered primarily with regard to the relief of distress and the saving of human life, and secondarily with regard to economy.
- (c) Advice as to the measures and methods of working which seem likely to prove most effective in future in those two respects.
- (d) Other recommendations or opinions thought likely to be useful in the case of future famines.

3. Witnesses offering evidence will be required to confine themselves strictly to these subjects and to send their evidence in written form, and in English, to the Secretary to the Commission at the Imperial Secretariat Building, Calcutta, as soon as possible. In so doing, the witnesses must give full particulars of their race, age, profession and residence, and of the opportunities they have had of forming an opinion on famine and famine relief questions.

4. As the time at their disposal is limited, the Commission do not bind themselves to invite all such volunteer witnesses to attend and be examined. Witnesses whom the Commission desire to hear will receive notice by post, and any witness appearing in reply to such invitation will be paid his travelling expenses. No witness should attend for examination without an invitation from the Commission. In the case of witnesses who are not invited to attend, their evidence will be examined and placed on the record.

H. J. McINTOSH,  
*Secretary to the Famine Commission.*

*The 12th January 1898.*

FINAL REPORT ON THE INDIGO CROPS OF BENGAL  
FOR THE YEAR 1897.

The following is published for general information.

REV. DEPT.,  
The 15th January 1898.

M. FINUCANE,  
Secretary to the Govt. of Bengal.

DEPARTMENT OF LAND RECORDS AND  
AGRICULTURE, BENGAL.

*Final Report on the Indigo Crops of the Lower Provinces of  
Bengal for the year 1897.*

*Character of the season.*—It will appear from the remarks of District Officers, in the statement attached to this note, that the crop suffered considerably for want of timely rainfall during the growing season in the districts of Midnapur, Murshidabad, Champaran and Purneah, and that it suffered from incessant rainfall during the manufacturing season in Jessore. In the first note on this crop, issued by this Department on 3rd October 1897, it was pointed out how the spring cultivation and sowings had been greatly retarded in places by want of moisture. The heavy rainfall later in the season interfered also with the healthy growth of the plants and the proper manufacture of the dye. Loss was also caused by floods in Purneah. The season was, therefore, unfavourable for the indigo crop both in Bihar and in Bengal, and the outturn reported is, accordingly, poor.

*Area under cultivation.*—The total area sown this year is estimated to be less than last year's area by 27,000 acres. The falling off was most marked in Muzaffarpur (by 17,200 acres), Nadia (by 9,400 acres), Midnapur (by 8,000 acres), Jessore (by 4,000 acres), and Rajshahi (by 1,400 acres). The increased cultivation reported from a few districts is only nominal, except in the case of Purneah and Champaran, where 8,300 and 5,000 acres more, respectively, than the previous year's area, have been shown.

*Outturn of crop.*—Of the chief indigo-growing districts, Muzaffarpur and Saran return a 7-anna crop only. Midnapur and Murshidabad, 8 and 9-anna crops respectively, and Darbhanga, Champaran and Purneah, 10-anna crops. The general averages deduced from the district figures come to 9 annas for Bihar and  $10\frac{1}{2}$  annas for Bengal, but the Bengal figure is probably too high.

Messrs. Moran and Company estimate the outturn of indigo for Bihar and Bengal at 3,104,200lbs. and 1,309,000lbs. respectively, as against 3,128,700lbs. and 2,525,300lbs. estimated by the District Officers. The figures for Bihar closely approximate, but the total, as well as the details for Bengal, widely differ, and it is probable that Messrs. Moran and Company's estimate is more correct than that shown by us, though there may be much indigo produced and utilized for local consumption in Bengal, which does not come into the Calcutta market.

P. C. LYON,

CALCUTTA,  
The 8th January 1898.

} Director of the Department of Land  
Records and Agriculture, Bengal.

## Final Report on the Indigo Crops of Bengal, 1897.

Owing to excellent rainfall throughout, the outturn is an average one.

The area and outturn are the same as last year's, but the yield is forecast to be less than what was estimated at the time of the first stage. The area under indigo has been furnished by the police, due to revision of figures. The better outturn is due to seasonable rainfall.

The decrease in area and outturn, as compared with those of the preceding year, is due to the absence of rain during the sowing season.

This year's outturn is less than the average, owing to incessant rains during the manufacturing season. Revised figures have been shown in column 4.

The area in Murshidabad also appears to be increased.

It appears to this Department that the Collector of Midnapur has over-estimated his area under indigo. This point will be further enquired into.

It appears to this Department that the Collector of Midnapur has over-estimated his area under indigo. This point will be further enquired into.

The area in Murshidabad also appears to be in excess.

| Division | 1897 | 1898 | 1899 | 1900 | 1901 | 1902 | 1903 | 1904 | 1905 | 1906 | 1907 | 1908 | 1909 | 1910 | 1911 | 1912 | 1913 | 1914 | 1915 | 1916 | 1917 | 1918 | 1919 | 1920 | 1921 | 1922 | 1923 STATISTICS OF THE SEA-BORNE TRAFFIC OF THE MINOR PORTS  
IN BENGAL IN FOOD-GRAINS.

No. 59 Statistics.—The following memorandum and statements are published for general information.

STATISTICAL DEPT.,  
The 18th January 1898.

M. FINUCANE,  
Secy. to the Govt. of Bengal.

Memorandum.

THE comparative statements below give statistics of the import and export trade of the minor ports of Chittagong, Narayanganj, Balasore (including both Balasore and Chandbali), Cuttack, and Puri during the ten days ending 31st December 1897, as compared with the trade of the corresponding period of 1896:—

Owing chiefly to larger receipts of gram and pulses and other food-grains from Calcutta and Rangoon, the import trade of Chittagong improved by 345 cwts., while Colombo and Calcutta together received 1,583 cwts. of rice and 330 cwts. of paddy, against nil in the corresponding period of 1896. The improvement of 1,103 cwts. in the import trade of the Balasore ports was mainly due to the receipts of 1,131 cwts. of wheat, gram and pulses and other food-grains from Calcutta, against 29 cwts. only in the ten days ending 31st December 1896, and the increase in the export trade was attributable to larger consignments of rice and paddy to Calcutta, viz., 31,619 cwts., against 24,640 cwts., during the corresponding period of last year.

SUPPLEMENT TO THE CALCUTTA GAZETTE, JANUARY 19, 1898. 125

*Statement showing the quantities of Food-grains exported from Balasore to each Foreign and Indian Port during the ten days ending 31st December 1897, as compared with the trade of the corresponding period of 1896.*

EXPORTS OF FOOD-GRAINS BY THE EASTERN BENGAL STATE RAILWAY.

*No. 63 Statistics.*—The following statement shows the quantity of rice and other food-grains exported by the Eastern Bengal State Railway from Sealdah and Calcutta during the period from 1st January to 31st December 1897, both days inclusive, to have been 13,83,926 maunds. The destination of 13,79,620 maunds is specified. Of this quantity, 10,63,336 maunds were carried to stations in Bengal Proper, and 94,438 maunds to Bihar and Chota Nagpur, 45,935 maunds to the North-Western Provinces and Oudh, 1,67,988 maunds to Assam, and the rest (7,933 maunds) to other provinces.

STATISTICAL DEPARTMENT,  
The 18th January 1898.

M. FINUCANE,  
Secretary to the Govt. of Bengal.

Statement showing the quantities of rice and other food-grains exported from Sonkhah and Calcutta (Port Trust Railway Chitpur and Kidderpore Docks), by the Eastern Bengal State Railway, from 1st January to 31st December 1897.

| Puri ...                            | 15   | 12 | } per rupee. |
| Khurda ...                          | 14   | 7  |              |
| In the interior of the district ... | 14   | 7  |              |
|                                     | 17   | 0  |              |

**Hazaribagh.**—No rain. Weather seasonable. Sugarcane being pressed. Prospects of winter crops good. Rice selling at 12 to 15 seers per rupee.

**Lohardaga.**—No rain. State of standing crops good. Rice selling at Ranchi 12 seers, and in the interior from 12 to 24 seers per rupee. Cattle-disease reported. Fodder and water sufficient. Grain in stock sufficient.

**Palamau.**—Rainfall nil. Weather seasonable. *Rabi* suffering for want of rain. Fodder and water sufficient. Cattle-disease prevailing. Rice sells at 12½ seers per rupee.

**Manbhum.**—Rainfall nil. Weather seasonable. Prospects of crops good. No cattle-disease reported. Fodder and water sufficient. Average price of common rice at Sadar 16 seers and at Gobindpur 15 seers per rupee. Supply sufficient.

**Singhbhum.**—Rainfall nil. Rice plentiful; price 14 to 16 seers per rupee.

**General Summary.**—There was no rain during the week. A shower now would be beneficial to the *rabi* crops in parts and to the poppy crop in Monghyr; otherwise the prospects of the *rabi* and poppy crops are favourable. The winter rice harvest is almost at an end. The gathering of the early *rabi* crops is going on, and the pressing of sugarcane in some districts is in progress. Reports of the indigo crop in Bengal are good. Prices are almost stationary. No cattle-disease is reported except from places in Midnapore, Noakhali, Purnea, Lohardaga, and Palamau. The supply of fodder and water is generally sufficient except in the flooded area of Chittagonj and at Kurigram in Rangpur, as previously reported.

By order of the Lieutenant-Governor of Bengal,

REVENUE DEPARTMENT,

M. FINUCANE,

The 18th January 1898.

Secretary to the Govt. of Bengal.

   |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |      |
|   |   |   |   |   |   |   |   |   |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    | 1                     | 0.40                          | 0.29                          | 0.23                            |                                    |   |   |                               |                    |                     |                          |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     |     | **SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS  
TAKEN IN BENGAL, AND OF THE METEOROLOGICAL OBSERVATIONS  
TAKEN IN ASSAM, FOR THE MONTH OF DECEMBER 1897.**

During December, weather is, with but little variation, fine and settled over the province and the north of the Bay. The retreating monsoon is still active in the south, and squally weather frequently occurs, but does not usually extend to the north of a line joining Diamond Island and Nellore. When cyclonic storms develop to the south of this line, the most common direction of advance is towards the Madras coast or Ceylon, and occasionally they enter the north of the Bay, the latter course being very rare after the middle of the month.

On the other hand, the season for the cold-weather storms may be said to have begun before the end of the month, so that weather in Bengal is liable to be disturbed by the approach of unsettled conditions from the south of the Bay in the early part of the month, or from the north-west of India during the latter half. The rainfall caused by these slight storms is invariably of small amount, as shown by the normal averages being between .2 and .3 inch in the southern part of the province, including East Bengal, Chota Nagpur and Orissa, and between .1 and .2 inch in the northern and central districts.

During the month just past, weather has been more settled than usual, though an abnormal development occurred over the Bay towards the end of the month, with results which were felt over the greater part of the province. A cyclonic storm of some severity began in the east of the Bay about the 22nd, and after causing strong winds as far north as Diamond Island on the 24th, it moved westward, apparently towards the Ceylon coast. As far as could be inferred from the coast observations, stormy weather prevailed over a wide area, and the course taken by the centre continued for some time to be westerly. As it approached the west coast, it turned northwards and moved into the centre of the Bay where it began to break up about the 28th. A few shipping reports since received show that strong winds, with a very rough sea, prevailed up till the 28th, after which weather rapidly moderated.

The influence of this storm on weather in Bengal was seen in the general cloud which continued for some days, the only rainfall which occurred was due to it, and was confined to Orissa and East Bengal, in the former of which .12 inch fell on an average for the whole division, and in the latter .07 inch. The other parts of the province, including South-West Bengal, Chota Nagpur, North Bengal and Bihar, were rainless throughout the month.

As no disturbance passed over the province from the west, the above was the only occasion of unsettled weather during the whole month. At other times, the usual oscillations of pressure occurred, with local irregularities, which at times gave rise to cloud and a few isolated light showers, mostly in North Bengal during the first week.

Temperature was low or almost normal till towards the end of the month, when the cyclonic storm over the Bay caused a considerable rise, especially in night readings.

At the end of November, there was a rather large defect in pressure over the whole province, increasing slightly towards the north-west. During the first two days of December, this defect to a large extent disappeared owing to a continued moderate to brisk rise, but a slight depression remained over Bihar for a few days more. While it lasted, winds were more southerly than usual in the western districts, and the sky was cloudy over the north of the province, with a few very light scattered showers in North Bengal.

A general rise of pressure set in on the 6th, varying from .08 inch in North Bengal and Bihar to about .02 inch in the south of the Bay, so that the gradient became steeper and the northerly winds strengthened. Well marked cold-weather conditions then prevailed over the province and the north of the Bay, and in the south, the squally weather spread westwards towards Ceylon, where rainfall was of daily occurrence. The high pressure continued for some days over Bengal, but it was giving way from the 7th, at first slowly, then moderately, and by the 9th the distribution was again normal.

From the 5th to the 9th, while pressure was higher and the gradient rather steeper than the average, winds were normal in direction and strength, and mean temperature was practically normal.

Between the 10th and 13th only slight changes occurred in pressure and temperature, and the settled weather, which prevailed in the north, extended to the extreme south of the Bay. From the latter date they both began to fall over the whole area, except in Burma, where temperature remained several degrees above the normal. Though there was little change in the general weather conditions in the north of the Bay, showery weather set in over the Peninsula. The period of cool weather continued till the end of the third week, when normal conditions were again prevalent.

The cyclonic storm was by that time developing in the east of the Bay, and as the depression was causing an indraught from the west, rainfall ceased in Madras and Ceylon.

The depth of the depression increased considerably on the 23rd, owing to a rapid increase over Bengal and probably a fall within the area of disturbance, which was still in the south-east or south of the Bay. Wind velocity began to increase at Diamond Island and the sea was not so smooth, but it was not till the 24th that there was any decided change. The velocity at 8 A.M. was then 30 miles an hour. Pressure began to fall in Ceylon and the south of Madras, and the change of winds in Burma, from N. N. E. to E. N. E., showed that the disturbance was moving westward, more especially as heavy rain was falling in Ceylon and the sea was more or less rough as far north as Negapatam. On the 25th and 26th, the fall of pressure was general in the west of the Bay, but was most noticeable in the Circars, towards which the depression was then probably moving. It was more diffused, and shortly afterwards, filled up over the centre of the Bay.

The influence of the disturbance in the north of the Bay and over the province has been already stated. Clouds began to form on the 24th, and steadily increased in density till the sky was everywhere overcast. The usual change of temperature followed, giving warm nights and cool days, but with only a moderate variation from the normal temperature. Notwithstanding the heavy cloud, very little rain fell, and the light showers were confined to Orissa and East Bengal.

Though the disturbance appeared to cease, while the depression was still over the centre of the Bay, the subsequent changes of pressure in the north of the province show that it is not improbable that the depression continued to move northwards at a higher level of the atmosphere. On the 29th pressure rose slowly at all stations, but on the 30th, a brisk fall set in over the north of the province and continued rapidly on the 31st, resulting in a depression of considerable depth over North Bengal and Bihar. These changes may have been due to the depression from the Bay, breaking up on reaching the Himalayas. Winds became south or south-west over the province, but the cloudy weather, which had previously been general, was not maintained, and no rain fell either in North Bengal or Bihar.

Pressure changes have generally been small, and the difference from the normal has been more than .1 inch on a few occasions only, the greatest defect being about .14 inch in Bihar at the end of the month. Mean values for the month differ by very small amounts from the normal, usually by only a few thousandths of an inch, there being a slight excess in the north and a similar small defect in the south of the province.

Temperature, during the early half of the month, differed little from the normal. Then followed a week of comparatively cool weather, till the sky became cloudy owing to the disturbance over the Bay. During the last week of the month, means were generally above the normal.

Neither average maximum nor average minimum values for the whole month differed to any great extent from the normal. Usually there was a small excess in the north and a small defect in the south, and the mean variation is generally about half a degree.

The lowest reading recorded in Chota Nagpur was 40.9°, in Bihar 42.6°, in South-West Bengal and Orissa 44.3° and in North Bengal 46.6°.

Rainfall was almost entirely confined to Orissa and East Bengal, and, with the exception of a few light showers in the early part of the month, fell on the 27th and 28th. The falls in East Bengal were mostly in Chittagong, Noakhali and South Lushai. The only reports exceeding .3 inch were received from Cox's Bazar and Kodala. In Orissa, there were no falls of more than .2 inch. The average fall for East Bengal was rather less, and in Orissa, rather more than a tenth of an inch.

The following table gives in a condensed form the summary of the rainfall information in Bengal for the whole year. It gives a comparison between the actual monthly and total rainfall of the year with the normal values in each of the six meteorological divisions of Bengal, the actual falls being expressed as percentages of the normal amounts:—

| METEOROLOGICAL DIVISIONS. | January. | February. | March. | April. | May. | June. | July. | August. | September. | October. | November. | December. | Actual rainfall of the year 1897 expressed as a percentage of the normal fall for period. |

The mean pressure of the seven days ... Inches. 30.057

The average pressure of the corresponding period for 24 years, Surveyor-General's Office ... 30.027

The total number of hours of bright sunshine ... Hours. 63.9

The maximum possible number of hours of sunshine ... 75.8

The mean temperature of the seven days ... 62.5

The average temperature of the corresponding period for 24 years, Surveyor-General's Office ... 66.6

The extreme variation of temperature ... 30.5

The maximum temperature ... 78.9

The highest velocity of the wind in one hour ... Miles. 7

The mean relative humidity ... % 69

The average relative humidity of the corresponding period for 24 years, Surveyor-General's Office ... 70

The total fall of rain from 9th to 15th January 1898 ... Inches. Nil

The average fall of the corresponding period for 24 years, Surveyor-General's Office ... 0.02

The total fall from 1st to 15th January 1898 ... Nil

The average fall of the corresponding period for 24 years, Surveyor-General's Office ... 0.11

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph, and from observations made at 6h., 10h., 16h., and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beekley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

A, dew.

## ADDRESS OF THE INDIAN FAMINE COMMISSION WHILE ON TOUR FROM 27TH JANUARY TO 2ND FEBRUARY AND AGAIN FROM 5TH FEBRUARY TO 28TH MARCH.

The 25th January 1898.—The following is published for general information.

M. FINUCANE,

Secretary to the Govt. of Bengal.

No. 70, dated Calcutta, the 18th January 1898.

From—H. J. McIntosh, Esq., I.C.S., Secretary, Indian Famine Commission,  
To—The Revenue Secretary to the Government of Bengal.

I AM directed to inform you that arrangements have been made with the Post Office authorities for the transmission to the Commission, while on tour, of their correspondence. All communications intended for the Commission, or for any member of the Commission, should be addressed to "Famine Commission, Camp," without the addition of a post-town.

2. I am to request that the public may be informed of this address.

*No. 322.—The 24th January 1898.*—The following is published for general information.

M. FINUCANE,  
*Secy. to the Govt. of Bengal.*

**ENDOWMENT OF SRIMATI KRISHNA KAMINI CHAUDHURANI, WIDOW  
OF LATE BABU KESORI LAL RAY, OF TARAS,  
IN THE DISTRICT OF PABNA.**

No. 190, dated Calcutta, the 17th January 1898.

From—M. FINUCANE, Esq., C.S.I., Secy. to the Govt. of Bengal, General Dept.,  
To—The Director of Public Instruction, Bengal.

I AM directed to acknowledge the receipt of your letter No. 7236, dated the 30th December 1897, intimating that, in commemoration of His Honour's visit to the district of Pabna, in August 1896, Srimati Krishna Kamini Chaudhurani, widow of the late Babu Kesori Lal Ray, zamindar of Taras, in that district, has placed at the disposal of the Reception Committee the sum of Rs. 6,000 in Government securities, for the purpose of founding in her name a scholarship, to be awarded to the student passing the Entrance Examination from any school in the district who may secure the highest marks in Sanskrit among those failing to obtain any other scholarship. It is also proposed to award a silver medal to the boy who obtains the next highest number of marks after the boy who secures the scholarship on the same conditions as for the scholarship.

2. In reply, I am to say that the Lieutenant-Governor accepts the offer and desires that the acknowledgments of Government be conveyed to the donor for her liberality and public spirit.

# WEATHER AND CROP REPORT.

For the week ending the 24th January 1898.

**Burdwan.**—No rain. Weather seasonable. *Aman* paddy being threshed. *Rabi* crops and sugarcane being irrigated. Fodder and water sufficient. Common rice selling as follows :—

|                 | ... | ... | ...       | 11½  |              |

**Nadia.**—No rain. Rain wanted for *rabi* crops in places. Sugarcane pressing going on. *Arhar* and mustard are being harvested. Common rice selling at 11 to 13 seers per rupee. Fodder and water sufficient.

**Murshidabad.**—No rain. Weather seasonable. Harvesting of *aman* finished. *Kalai* still being harvested. *Rabi* crops and sugarcane doing well. Prospects of mulberry and indigo are favourable. Fodder sufficient. No cattle-disease reported. Common rice sells at Sadar 13 seers, Jangipur 15 seers, and Kandi 15 seers per rupee.

**Jessore.**—No rain. Weather fine, but hotter than last week. Harvesting of *aman* nearly over. Prospects of *rabi* crops fair. Cattle-disease still lingers in Bongaon thana. Fodder and water sufficient. Common rice sells as follows :—

|         |     |     |     |          |              |
|---------|-----|-----|-----|----------|--------------|
| Sadar   | ... | ... | ... | Srs.     | } per rupee. |
| Jhenida | ... | ... | ... | 12 to 14 |              |
| Magura  | ... | ... | ... | 12       |              |
| Narail  | ... | ... | ... | 12 to 13 |              |
| Bangaon | ... | ... | ... | 14½      |              |

**Khulna.**—No rain. Weather seasonable. Harvesting of *aman* going on; outturn good. Prospects of *rabi* crops good. Cultivation of *boro* crop going on. Water and fodder available. Common rice sells as follows :—

|          |     |     |           |      |              |
|----------|-----|-----|-----------|------|--------------|
| Sadar    | ... | ... | ...       | Srs. | } per rupee. |
| Bagirhat | ... | ... | ... 13 to | 16   |              |
| Satkhira | ... | ... | ...       | 14½  |              |
|          | ... | ... | ...       | 14½  |              |

**Rajshahi.**—No rain. Weather seasonable. Prospects of crops good. No cattle-disease reported. Fodder and water plentiful. Price of common rice ranges from 8 to 15 seers per rupee.

**Dinajpur.**—Rainfall nil. Weather seasonable. Harvesting of winter rice finished. Condition of *rabi* crops good. No cattle-disease. Fodder and water ample. Price of common rice 14 seers per rupee.

**Jalpaiguri.**—Rainfall nil. Weather seasonable. Harvesting of *haimanti* paddy nearly finished. Prospects of tobacco and mustard promising. Lands are being prepared for *bhadoi*. Common rice sells from 12 to 16 seers per rupee. Fodder and water sufficient.

**Darjeeling.**—Rainfall nil. Hills—Wheat, barley, *phaphur*, and *tori* thriving and promise well. Terai—*Haimanti* paddy reaped; *tori* and tobacco doing well; prospects good. Fodder and water sufficient. Coarse rice sells—

|                   |     |     |     |     |                          |
|-------------------|-----|-----|-----|-----|--------------------------|
| Hills             | ... | ... | ... | ... | 8 to 11 seers per rupee. |
| Terai             | ... | ... | ... | ... | 15 to 16 " "             |
| Bhutia sells from | ... | ... | ... | ... | 18 to 32 " "             |

**Rangpur.**—No rain. Harvesting of *aman* almost finished, and that of mustard and sugarcane going on. Prospects good. Common rice selling at 11 to 15 seers per rupee. Fodder and water sufficient except at Kurigram, where they are reported scarce in places.

**Bogra.**—Rainfall nil. Harvesting of winter rice finished. Oilseeds and pulses doing fairly well. Sugarcane being pressed. Fodder and water sufficient. Price of common rice 10 seers 14 chittacks to 13½ seers per rupee.

**Pabna.**—No rain. Crops promise well. Rain wanted. Price of common rice 10 to 12½ seers per rupee. Fodder sufficient.

**Dacca.**—Rainfall nil. Weather seasonable. Standing crops doing well. Fodder available. No cattle-disease. Common rice sells at 12 to 14 seers per rupee.

**Mymensingh.**—Rainfall nil. Weather seasonable. Mustard is being harvested and sugarcane pressed. Spring crops doing well. Lands being prepared for *bhadoi* crops. Price of common rice 10 to 12 seers per rupee.

**Faridpur.**—No rain. Weather seasonable. Prospects of crops good. Price of rice 11 to 12½ seers per rupee.

**Backergunge.**—Rainfall nil. Weather seasonable. Prospects of crops good. Common rice sells from 9 to 14 seers per rupee.

**Tippera.**—No rain. Weather seasonable. *Rabi* crops doing well. Mustard being out. Fodder and water available. Price of rice ranges from 9½ to 12 seers per rupee.

**Noakhali.**—Rainfall nil. Standing crops doing well. Cattle-disease (tympantitis) reported from Senbag. Fodder and water available. Price of common rice 12 to 15 seers per rupee.

**Chittagong.**—No rain. Weather clear and cold. *Rabi* promising. Fodder bad and water brackish in wave-swept area. Rice sells at 13 seers per rupee on an average.

**Patna.**—No rain. Threshing of paddy continues. Rain wanted for *rabi*. Sugarcane being pressed. Prices almost stationary. In Patna common rice (new) selling at 16 seers per rupee. Fodder and water for cattle sufficient.

**Gaya.**—No rain. *Rabi* and poppy doing well. Water and fodder sufficient. Common rice (new) sold at 13½ seers, wheat 9½ seers, barley 13 seers, gram 9½ seers, *arhar* 12 seers, and *makai* 18 seers per rupee.

**Shahabad.**—No rain. Weather seasonable. Standing crops good. Sugarcane pressing going on. Fodder and water sufficient. Prices stationary.

**Saran.**—No rain. Weather seasonable. Prospects of *rabi* and poppy good. Sugarcane pressing in progress. Fodder and water sufficient. Prices are—common rice 15 seers against 8 seers 12 chittacks last year, and *makai* 20 seers 3 chittacks against 10 seers 1 chittack.

**Champaran.**—No rain. Prospects continue favourable, though rain much needed. Prices almost stationary. Common rice and maize selling at 15 and 21 seers per rupee, against normal 16½ and 21½ seers respectively.

**Muzaffarpur.**—Rainfall nil. Standing crops doing well. Prices are—common rice 13 to 15 seers, wheat 10 to 11 seers, barley 20 seers, *makai* 20½ seers, gram 8½ to 9 seers, *rahar* 10½ seers, and *marua* 25 seers per rupee.

**Monghyr.**—No rain. Weather cool and fair. Harvesting of winter rice finished. Prospects of *rabi* and poppy good. Early-sown poppy promises well, but late-sown plants are stunted and small. Sugarcane pressing going on. No cattle-disease. Common rice sells as follows:—

|           |     |     |     |                            |
|-----------|-----|-----|-----|----------------------------|
| Monghyr   | ... | ... | ... | 12 to 14½ seers per rupee. |
| Begusarai | ... | ... | ... | 12 to 14½ " "              |
| Jamui     | ... | ... | ... | 14 " "                     |

**Bhagalpur.**—No rain. Weather seasonable. *Rabi* crops doing well. Cattle-disease reported from Pratapganj. Prices of common rice are as follows:—

|                  | Srs. c. |              |
|------------------|---------|--------------|
| Sadar ... ..     | 16 6    | } per rupee. |
| Banka ... ..     | 16 4    |              |
| Madhipura ... .. | 16 0    |              |
| Supaul ... ..    | 18 0    |              |

**Purnea.**—No rain. Weather seasonable. *Aghani* harvest over; outturn good. Standing crops promising. Cattle-disease still reported from Araria. Fodder and water sufficient. Common rice sells as follows:—

|                   |                     |
|-------------------|---------------------|
| Sadar ... ..      | 15 seers per rupee. |
| Kishanganj ... .. | 14 " "              |
| Araria ... ..     | 18 " "              |

**Malda.**—No rain. Weather fine and cool. Prospects of *rabi* crops good. Ordinary rice selling at 14½ seers per rupee at Sadar station.

**Sonthal Parganas.**—No rain. Dews sufficient. Harvesting of winter rice practically over. Rain wanted for *rabi*. No cattle-disease. Fodder and water sufficient. Price of rice 18 to 18 seers, and of maize 15 to 32 seers per rupee.

**Cuttack.**—Rainfall nil. Weather seasonable. *Gura sarad* being harvested. *Rabi* crops being gathered. Condition of cattle generally good. Fodder sufficient. Common rice sells as follows:—

|                   | Srs. c. |              |
|-------------------|---------|--------------|
| Cuttack ... ..    | 15 12   | } per rupee. |
| Jajpur ... ..     | 18 6    |              |
| Kendrapara ... .. | 18 6    |              |
| Banki ... ..      | 19 6    |              |

**Balasore.**—Rainfall nil. Harvesting of *sarad* and *rabi* crops continues. *Dalua* crop thriving well. Price of rice varies from 14½ to 19 seers per rupee in the interior. Rice sells at 14½ and 18 seers per rupee at Balasore and Bhadrak respectively. Fodder and water sufficient.

**Angul.**—No rain. Harvesting of *rabi* in progress. Rice selling at 24 seers per rupee in Angul and 19½ seers in Khondmals.

**Puri.**—No rain. Reaping of *sarad* almost completed. *Moong* being sown, and have germinated in places. Mustard, *kolthi*, and other *rabi* crops promise well. Price of common rice almost stationary.

**Hasaribagh.**—No rain. Weather seasonable. Standing crops good. Poppy being irrigated. Price of common rice 12 to 15 seers per rupee.

**Lohardaga.**—No rain. State of standing crops good, but rain is wanted. Rice sells at Ranchi 13 seers, and in the interior from 12 to 24 seers per rupee. Cattle-disease exists in a few villages. Fodder and water sufficient. Grain in stock sufficient.

**Palamau.**—Rainfall nil. Weather becoming hot. *Rabi* injured for want of rain. Sugarcane being pressed. Rice sells at 12 seers per rupee.

**Manbhum.**—Rainfall nil. Weather seasonable. Prospects of crops good. Cattle-disease reported from thana Baghmundi in the Sadar subdivision. Fodder and water sufficient. Average prices of rice:—

|                  | Srs. c. |              |
|------------------|---------|--------------|
| Sadar ... ..     | 16 0    | } per rupee. |
| Gobindpur ... .. | 15 0    |              |

Supply sufficient.

**Singhbhum.**—Rainfall nil. Rice plentiful. Price of rice 14 to 16 seers per rupee.

**General Summary.**—No rain fell during the week. The reports of the *rabi* crops continue generally favourable, but rain is now required in parts of Bihar and Chota Nagpur, and also in Nadia. The poppy crop is flourishing except the late-sown plants in Monghyr, which are stunted. The harvesting of winter rice is practically over, and threshing is now going on. The gathering of pulses, mustard and other early *rabi* crops, and the pressing of sugarcane are in progress. The price of rice is still stationary. Cattle-disease is still reported from places in Midnapore, Hooghly, Jessore, Noakhali, Bhagalpur, Purnea, Lohardaga, and Manbhum. There is no want of fodder or water for cattle except in the flooded tracts of Chittagong and at Kurigram in Rangpur.

By order of the Lieutenant-Governor of Bengal,

REVENUE DEPARTMENT,

M. FINUCANE,

The 25th January 1898.

Secretary to the Govt. of Bengal.

The mean pressure of the seven days ... .. Inches. 30.023

The average pressure of the corresponding period for 24 years, Surveyor-General's Office ... .. 30.016

The total number of hours of bright sunshine ... .. Hours. 61.0

The maximum possible number of hours of sunshine ... .. 76.8

The mean temperature of the seven days ... .. 64.7

The average temperature of the corresponding period for 24 years, Surveyor-General's Office ... .. 67.9

The extreme variation of temperature ... .. 30.6

The maximum temperature ... .. 79.5

The highest velocity of the wind in one hour ... .. Miles. 8

The mean relative humidity ... .. % 67

The average relative humidity of the corresponding period for 24 years, Surveyor-General's Office ... .. 70

The total fall of rain from 16th to 22nd January 1898 ... .. Inches. Nil

The average fall of the corresponding period for 24 years, Surveyor-General's Office ... .. 0.06

The total fall from 1st to 22nd January 1898 ... .. Nil

The average fall of the corresponding period for 24 years, Surveyor-General's Office ... .. 0.17

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph, and from observations made at 6h., 10h., 16h., and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed at the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

☀, dew.

METEOROLOGICAL OFFICE, GOVT. OF INDIA,  
Calcutta, the 24th January 1898.

**Khulna.**—Rainfall at Sadar ·60, Bagerhat ·42, Satkhira ·40. Weather seasonable. Harvesting of *aman* paddy nearly over. Cultivation of *boro* crop going on. Prospects of *rabi* crops good. Water and fodder available. Common rice sells as follows:—

|          | Srs.         |              |
|----------|--------------|--------------|
| Sadar    | ... 13 to 17 | } per rupee. |
| Bagerhat | ... 14       |              |
| Satkhira | ... 14½      |              |

**Rajshahi.**—Rainfall at Sadar ·75, Nator 1·00, Naugaon ·87. Prospects of standing crops good. No cattle-disease. Fodder and water plentiful. Common rice sells from 11 to 15 seers per rupee.

**Dinajpur.**—Average rainfall 74. Weather somewhat cloudy. Harvesting of winter rice finished. *Rabi* crops good. Lands being prepared for jute and *bhadosi*. No cattle-disease. Fodder and water ample. Price of common rice 13½ seers per rupee.

**Jalpaiguri.**—Rainfall nil. Weather cold and sometimes cloudy. Harvesting of *haimanti* paddy nearly finished. Standing crops doing well. Common rice sells from 12 to 16 seers per rupee. Fodder and water sufficient.

**Darjeeling.**—Rainfall ·53. Hills—Wheat, barley, *phaphur*, and *tori* progressing and promise well; mustard and potatoes being harvested. Terai—*Haimanti* paddy entirely threshed; tobacco and *tori* doing well. Potatoes and mustard growing well. Coarse rice sells as follows—

|       |                              |
|-------|------------------------------|
| Hills | ... 8 to 11 seers per rupee. |
| Terai | ... 12 to 16 " "             |

*Bhutta* sells from 19 to 32 seers per rupee.

**Bangpur.**—Rainfall at Sadar 45; district average rainfall ·56. Harvesting of *aman* almost finished, and that of sugarcane going on. Mustard is being gathered. Prospects good. Common rice selling at 11 to 15 seers per rupee. Fodder and water sufficient except at Kurigram, where they are reported scarce in places.

**Bogra.**—Rainfall at Bogra 1·00, Silerpur 1·00, Naukhila ·74, Panchbihi ·75. The rain has benefited all standing crops. Oilseeds being gathered. Sugarcane being pressed. Fodder and water sufficient. Price of common rice 10½ to 13½ seers per rupee.

**Pabna.**—Rainfall .42 both at Sadar and Sirajganj. Weather seasonable. Crops promise well. More rain wanted. Fodder sufficient. Price of common rice 9 to 12½ seers per rupee.

**Dacca.**—Rainfall at Sadar 1.30, Manikganj 1.36, Munshiganj 1.52, Narainiganj 1.90. Weather seasonable. The recent rain has done much good to the standing crops. Fodder available. No cattle-disease. Price of common rice 10 to 14 seers per rupee.

**Mymensingh.**—Rainfall at Sadar .47, Kishorganj .75, Jamalpur .50, Nitrokonā .41. Weather seasonable. *Boro* paddy is being transplanted. Price of common rice 10 to 12 seers per rupee.

**Faridpur.**—Rainfall at Sadar 3.24, Goalundo 1.48, Madaripur 1.25. Weather seasonable. State and prospects of crops good. Common rice sells at 11½ to 12½ seers per rupee. Fodder available. No cattle-disease.

**Backergunge.**—Rainfall at Sadar .56, Patuakhali .70, Bhola .32. Weather seasonable. Prospects of crops good. Common rice sells from 9 to 13 seers per rupee.

**Tippera.**—Rainfall 1.24. Weather occasionally cloudy. The rain has improved the prospects of the *rabi* crops, and ploughing started everywhere. Price of rice 10 to 13 seers per rupee.

**Noakhali.**—Rainfall at Sadar .14, Feni .12. Prospects of *rabi* crops good. No cattle-disease. Fodder and water available. Price of common rice 12 to 15 seers per rupee.

**Chittagong.**—Rainfall .26. Weather seasonable. *Rabi* crops promising except in the wave-swept area, where the water is brackish and the fodder bad. Rice sells at 13 seers per rupee on an average.

**Patna.**—No rain. Threshing of paddy going on. *Rabi* and poppy doing well. Sugarcane being pressed. Prices stationary. In Patna common rice (new) selling at 16 seers per rupee. Fodder and water for cattle sufficient.

**Gaya.**—No rain. *Rabi* and poppy doing well, but rain is much wanted. Fodder and water sufficient. Prices are—common rice (new) 14½ seers, wheat 9½ seers, barley 13½ seers, gram 8½ seers, *arhar* 13 seers, and *makai* 19 seers per rupee.

**Shahabad.**—No rain. Weather seasonable. Standing crops good, but some rain is wanted. Sugarcane pressing going on. Fodder and water sufficient. Prices stationary.

**Saran.**—Weather cloudy. *Rabi* and poppy doing well. Sugarcane pressing going on. Fodder and water sufficient. Average price of common rice 15 seers 1 chittack and of *makai* 20 seers 10 chittacks per rupee, against 11 seers 13 chittacks and 9 seers 14 chittacks respectively last year.

**Champaran.**—Rainfall on 26th at Motihari .38, Bettiah .20, Bagaha .32. *Rabi* and poppy much benefited. Slight damage from hail in parts. Prices generally stationary, but common rice risen to 14½ seers and maize fallen to 21½ seers, average being 16½ and 21 respectively.

**Muzaffarpur.**—Rainfall at Sadar .28. Standing crops doing well. Prices are—common rice 14½ seers, wheat 11 seers, barley 16 seers, *makai* 20 seers, gram 9½ seers, *arhar* 10½ seers, and *marua* 20 seers per rupee.

**Darbhanga.**—Rainfall at Sadar .40, Somastipur .14, Madhubani .85. Prospects of crops good. Rapeseed maturing. Linseed and peas in flower at Somastipur. Hail caused some damage to tobacco at Madhubani. Fodder and water sufficient. Common rice sells at 14½ seers per rupee at Sadar.

**Monghyr.**—Rainfall at Sadar .04, Jamui nil, Begusarai .09. Weather cool and cloudy. *Rabi* crops promising. Pressing of sugarcane going on. Early-sown poppy coming into flower; late-sown plants backward and stunted. General prospects fair. No cattle-disease. Common rice sells as follows:—

|           |     |     |     |    |     |                  |
|-----------|-----|-----|-----|----|-----|------------------|
| Monghyr   | ... | ... | 12  | to | 14½ | seers per rupee. |
| Jamui     | ... | ... | ... | 14 | "   | "                |
| Begusarai | ... | ... | 12  | to | 14  | "                |

**Bhagalpur.**—Rainfall at Supaul .41. Weather seasonable. *Rabi* crops doing well. Cattle-disease continues at Pratapganj. Common rice sells at 16 seers 6 chittacks per rupee at Sadar.

**Purnea.**—Rainfall at Sadar .16, Kishanganj .50, Araria .22. The recent rain has benefited the standing *rabi* crops. Pressing of sugarcane and harvesting of tobacco begun. Fodder and water sufficient. Common rice sells as follows:—

|            |     |     |     |    |                  |
|------------|-----|-----|-----|----|------------------|
| Sadar      | ... | ... | ... | 16 | seers per rupee. |
| Kishanganj | ... | ... | ... | 14 | "                |
| Araria     | ... | ... | ... | 18 | "                |

**Malda.**—Rainfall at Sadar 67, Chanchal 44, Gajol 15, Shibganj 100. *Rabi* crops much benefited by the rain. Mango trees are now in blossom. Common rice selling at Sadar 14 seers per rupee.

**Sonthal Parganas.**—Average rainfall 44. More rain wanted at Jamtara. Weather cool and cloudy. Harvesting of winter rice completed. *Rabi* crops doing well. No cattle-disease. Fodder and water sufficient. Prices are—rice 13½ to 18 seers, and maize 15 to 32 seers per rupee.

**Cuttack.**—Rainfall nil. Weather reasonable. *Guru sarad* and *rabi* being harvested. Condition of cattle generally good. Fodder sufficient. Common rice sells as follows:—

|            |     |     |     | Srs. | c.    |              |
|------------|-----|-----|-----|------|-------|--------------|
| Cuttack    | ... | ... | ... | ...  | 15 12 | } per rupee. |
| Jajpur     | ... | ... | ... | ...  | 21 0  |              |
| Kendrapara | ... | ... | ... | ...  | 17 1  |              |
| Banki      | ... | ... | ... | ...  | 19 6  |              |

**Balasore.**—Rainfall nil. Harvesting of *sarad* and *rabi* crops continues. *Dalua* and cotton crops growing well. Price of rice varies from 14½ to 18 seers per rupee in the interior. Rice sells at 14½ and 18 seers per rupee at Balasore and Bhadrak respectively. Fodder and water sufficient.

**Angul.**—No rain. Gathering of *rabi* crops continues. Rice sells at 24 seers per rupee in Angul and at 15½ seers in Khondmala.

**Puri.**—No rain. Reaping of *sarad* almost completed. Sowing of summer rice and *moony* continues. Prospects of mustard, *kolthi*, and other *rabi* crops good. Common rice sells as follows:—

|                                 |     |     |     | Srs.        | c.   |              |
|---------------------------------|-----|-----|-----|-------------|------|--------------|
| Puri                            | ... | ... | ... | ...         | 17 1 | } per rupee. |
| Khurda                          | ... | ... | ... | ...         | 17 1 |              |
| In the interior of the district | ... | ... | ... | 15-12 to 18 | 6    |              |

**Hazaribagh.**—No rain. Weather seasonable. Sugarcane fields being ploughed. Standing crops continue favourable. Rice selling at 12 to 15 seers per rupee.

**Lohardaga.**—No rain. State of standing crops good. Rain is wanted. Rice sells at Ranchi 13 seers per rupee, and in the interior from 13 to 20 seers. Cattle-disease continues. Fodder and water sufficient. Grain in stock sufficient.

**Palamau.**—Rainfall nil. Weather becoming hot. *Rabi* suffering much for want of rain. Rice sells at 12 seers per rupee. Cattle-disease prevalent.

**Manbhum.**—Weather seasonable. Cloudy at end of week. Prospects of crops on the ground improved by rain. No cattle-disease reported. Fodder and water sufficient. Average price of common rice at Sadar 16 seers and at Gobindpur 15 seers per rupee. Supply sufficient.

**General Summary.**—There was general rain over Bengal Proper and in the north of Bihar during the week. The rain has been good for all standing crops, but slight damage is reported to have been done by hail in parts of Nadia, Champaran, and Darbhanga. In parts of South Bihar and Chota Nagpur, where no rain has fallen, it is required for the *rabi* crops. Poppy is in good condition except the late-sown plants in Monghyr. Sugarcane and the early *rabi* crops are being gathered. There is practically no change in the price of rice since last week. Cattle-disease still exists in parts of Hooghly, Jessore, Bhagalpur, Lohardaga, and Palamau, and scarcity of fodder is reported from the flooded tracts of Chittagong and from Kurigram in Rangpur.

By order of the Lieutenant-Governor of Bengal,

REVENUE DEPARTMENT,

The 1st February 1898.

M. FINUCANE,

Secretary to the Govt. of Bengal.

I.  
IMPORTS INTO CALCUTTA.  
The following Statement shows the Quantities of the Principal Staples of the Interior by Rail, Road, River (Country-boat and Steamer), and Canal during the month of May 1897.

The mean pressure of the seven days ... 30.011

The average pressure of the corresponding period for 24 years, Surveyor-General's Office ... 29.965

The total number of hours of bright sunshine ... 58.7

The maximum possible number of hours of sunshine ... 77.0

The mean temperature of the seven days ... 66.3

The average temperature of the corresponding period for 24 years, Surveyor-General's Office ... 68.6

The extreme variation of temperature ... 29.9

The maximum temperature ... 83.9

The highest velocity of the wind in one hour ... 12

The mean relative humidity ... 76

The average relative humidity of the corresponding period for 24 years, Surveyor-General's Office ... 71

The total fall of rain from 23rd to 29th January 1898 ... 0.36

The average fall of the corresponding period for 24 years, Surveyor-General's Office ... 0.11

The total fall from 1st to 29th January 1898 ... 0.36

The average fall of the corresponding period for 24 years, Surveyor-General's Office ... 0.28

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph, and from observations made at 6h., 10h., 16h., and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

☐ fog; ☐, dew; t, thunder, ☐, lightning; lr, lightning reflection; d, drizzling rain; o, overcast; p, passing temporary showers.

METEOROLOGICAL OFFICE, GOVT. OF INDIA,  
Calcutta, the 31st January 1898.

J. H. GILLILAND,  
For Meteorological Reporter to the Govt. of India.

Results of the Barometrical and Thermometrical Observations taken at the Meteorological Office, Chowringhee, from 23rd to 29th January 1898.

### WEATHER AND CROP REPORT.

*For the week ending the 7th February 1898.*

**Burdwan.**—No rain. Weather cloudy and unsettled. Threshing of *aman* paddy continues. *Kalai* and potatoes being harvested. Sugarcane being pressed. Mangoes in full blossom. Common rice selling as follows:—

|          |     | Srs. | Srs.         |              |
|----------|-----|------|--------------|--------------|
| Sadar    | ... | ...  | 11½ to 14    | } per rupee. |
| Kalna    | ... | ...  | ... 12 to 13 |              |
| Katwa    | ... | ...  | ... 13       |              |
| Raniganj | ... | ...  | ... 14 to 15 |              |

**Birbhum.**—No rain. Weather cold and cloudy. Standing crops doing well. Prices stationary. Fodder sufficient.

**Bankura.**—No rain. Weather generally cloudy. Shock of earthquake on the 2nd. Mustard being harvested. Other standing crops doing well. Fodder and water sufficient. Sporadic cases of cow-pox reported. Price of common rice 15½ seers per rupee at Sadar and 15 seers at Vishnupur.

**Midnapore.**—No rain. Threshing of paddy still continues. *Rabi* crops are being gathered, and sugarcane pressed. Prospects of indigo good. Common rice selling as follows:—

|        |     |     | Srs.     |              |
|--------|-----|-----|----------|--------------|
| Sadar  | ... | ... | 12       | } per rupee. |
| Contai | ... | ... | 14 to 17 |              |
| Tamluk | ... | ... | 11½      |              |
| Ghatal | ... | ... | 12 to 18 |              |

**Hooghly.**—No rain. Harvesting of *aman* rice continues. Gathering of potatoes nearly finished. Common rice sells from 10 to 13 seers per rupee. Cattle-disease reported from Polva.

**Howrah.**—Rainfall nil. Mornings and evenings foggy and cloudy at times. Harvesting of *aman* almost over. *Rabi* crops progressing. Fodder and water-supply sufficient. Common rice sells at 10½ to 13 seers per rupee.

**24-Parganas.**—Rainfall nil. Weather cool. Prospects of crops good. Harvesting of *aman* rice and that of *kalai* and mustard nearly finished. No cattle-disease. Fodder and water sufficient. Common rice sells as follows:—

|                 | Srs.      |              |
|-----------------|-----------|--------------|
| Sadar           | 10 to 13½ | } per rupee. |
| Barasat         | 14        |              |
| Basirhat        | 13½       |              |
| Diamond Harbour | 12½       |              |

**Nadia.**—Report not received.

**Murshidabad.**—No rain. Weather seasonable. Harvesting of *kalai* finished. *Rabi* crops and sugarcane doing well. Prospects of mulberry and indigo favourable. Fodder sufficient. No cattle-disease reported. Common rice sells as follows:—

|          | Srs.                |     |
|----------|---------------------|-----|
| Sadar    | 13 seers per rupee. |     |
| Jangipur | 14                  | " " |
| Kandi    | 15                  | " " |

**Jessore.**—Rainfall at Sadar 0·09. Weather cloudy with drizzling rain. Harvesting of *aman* paddy completed. The last rain has done much good to the *rabi* crops. More rain is wanted. Fodder and water sufficient. Cattle-disease reported from Bangaon and Mahespur thanas. Common rice sells as follows:—

|         | Srs.      |              |
|---------|-----------|--------------|
| Jessore | 12 to 14  | } per rupee. |
| Narail  | 13-5½ ch. |              |
| Bangaon | 12 to 14  |              |

**Khulna.**—Rainfall at Satkhira 10. Weather warm; often cloudy. Harvesting of *aman* nearly over. Transplantation of *boro* going on. Prospects of *rabi* crops good. Water and fodder available. Common rice sells as follows:—

|          | Srs.     |              |
|----------|----------|--------------|
| Sadar    | 14 to 17 | } per rupee. |
| Bagirhat | 18       |              |
| Satkhira | 14½      |              |

**Rajshahi.**—Rainfall at Sadar nil, Nator 10, Nangaon 1·12. Weather cloudy. Prospects of standing crops good. Lands being prepared for *bhadoi* and jute. No cattle-disease. Fodder and water sufficient. Common rice sells from 11 to 15 seers per rupee.

**Dinajpur.**—Average rainfall 56. Weather cold and cloudy. *Rabi* crops good. Lands being prepared for jute and *bhadoi*. No cattle-disease. Fodder and water ample. Price of common rice 15 seers per rupee.

**Jalpaiguri.**—Rainfall 42. Weather cold and cloudy. Harvesting of *haimanti* paddy finished. Standing crops suffered from a severe hailstorm on the night of the 5th instant. Common rice sells from 12 to 14 seers per rupee. Fodder and water sufficient.

**Darjeeling.**—Rainfall at Darjeeling 49, Kalimpong 1·50, Kurseong 46, Siliguri 88. Hills—*Tori* and *phaphur* being harvested; potatoes being sown. Terai—*Haimanti* being threshed. Coarse rice sells as follows:—

|       | Srs.                     |     |
|-------|--------------------------|-----|
| Hills | 9 to 12 seers per rupee. |     |
| Terai | 12 to 16                 | " " |

*Bhutia* sells from 20 to 30 seers per rupee.

**Rangpur.**—District average rainfall 72; rainfall at Sadar 60. Harvesting of *aman* finished. Mustard being gathered. Land being prepared for *aus*. Prospects good. The rainfall of the week has been beneficial to the *rabi* crops in general. Common rice selling at 11 to 15 seers per rupee. Fodder and water sufficient except at Kurigram, where they are reported scarce in places.

**Bogra.**—Rainfall at Bogra 58, Sherpur 20, Naukhila 30, Panchbibi 71. The rain is doing good to the standing crops. Oilseeds being gathered. Sugarcane being pressed. Fodder and water ample. Price of common rice 11½ to 12½ seers per rupee.

**Pabna.**—Rainfall 13 at Sadar; 11 at Sirajganj. Weather seasonable. Crop prospects good. More rain is required. Price of common rice 10 to 12 seers per rupee. Fodder sufficient.

**Dacca.**—Rainfall nil. Weather foggy in the morning, and cloudy at intervals. *Rabi* crops thriving. Mustard being gathered. Fodder available. No cattle-disease. Price of common rice 11 to 14 seers per rupee.

**Mymensingh.**—Rainfall at Sadar ·17. Weather getting warm. Transplantation of *boro* going on. Price of common rice 10 to 11½ seers per rupee.

**Faridpur.**—No rain. Weather seasonable. Prospects of crops good. Price of rice from 11 to 12½ seers per rupee.

**Backergunge.**—Rainfall at Sadar ·30. Weather overcast. Prospects of crops good. Common rice sells from 9 to 13½ seers per rupee.

**Tippera.**—Rainfall ·44. Weather alternately cloudy and fine with occasional slight showers. Ploughing of land for *aus* in progress. Fodder sufficient. Price of rice from 10 to 13 seers per rupee.

**Noakhali.**—Rainfall at Sadar ·02, Feni ·06. Weather cloudy. Standing crops doing well. Cattle-disease reported from Lakhipur. Fodder and water available. Common rice selling at 12 to 15 seers per rupee.

**Chittagong.**—No rain. Weather somewhat warm. *Rabi* crops promising everywhere except in the wave-swept area, where the water is brackish. Rice selling at 13 seers per rupee on an average.

**Patna.**—Rainfall at Sadar ·41, Bah ·40, Bihar ·24, Dinapore ·39, Hilsa ·15, Bikram ·38. Threshing of paddy nearly completed. *Rabi* and poppy doing well. Prices almost stationary. In Patna common rice (new) selling at 15½ seers per rupee. Fodder and water for cattle sufficient.

**Gaya.**—Rainfall ·06. Prospects of *rabi* and poppy good. Water and fodder sufficient. Prices are—common rice 14½ seers, wheat 8½ seers, gram 9½ seers, *arhar* (new) 12½ seers and *makai* 18 seers per rupee.

**Shahabad.**—Rainfall at Sadar ·29, Buxar ·07, Sasaram ·05. Weather cloudy with easterly wind. Prospects favourable. Sugarcane pressing going on. Fodder and water sufficient. Prices stationary.

**Saran.**—Rainfall at Chapra ·13. Weather cool and cloudy. *Rabi* crops generally good. Sugarcane being pressed. Poppy healthy and promising in Chapra, but in Siwan some blight has appeared in light soils. Fodder and water sufficient. Price of common rice 15·11 seers and of *makai* 20·4 seers per rupee, against 9·2 seers and 10·2 seers respectively last year.

**Champanan.**—Rain (·71) this week has benefited poppy and *rabi* crops except where the latter are flowering. Hail in about 25 villages round Motihari has destroyed from 2 to 12 annas of poppy, but the benefit by rain to the rest will more than compensate this. Prices practically unchanged. Common rice and maize selling at 14½ and 21½ seers per rupee, against normal 16½ and 21 seers respectively.

**Muzaffarpur.**—Rainfall at Sadar ·26. Standing crops continue to promise well. Prices are—common rice 15 seers, wheat 11 seers, barley 20 seers, *makai* 21 seers, gram 9½ seers, *arhar* 11 seers, and *marua* 22 seers per rupee.

**Darbhanga.**—Rainfall at Sadar ·49, Somastipur ·33, Madhubani ·55. Prospects of crops good. The recent rain has done some damage to the *rahar* in flower and tobacco at Somastipur. In general the rain has done good to those crops which are not far advanced. Fodder and water sufficient. Common rice sells at 14 seers per rupee at Sadar.

**Monghyr.**—Report not received.

**Bhagalpur.**—Weather cloudy with slight showers occasionally. *Rabi* crops doing well. No cattle-disease reported. Fodder and water sufficient. Coarse rice sells at 15½ seers per rupee at Sadar.

**Purnea.**—Rainfall at Sadar ·47, Kishanganj ·25, Araria ·13. Weather cloudy. Standing *rabi* crops progressing. Rain favourable. Cattle-pox at Araria. Fodder and water sufficient. Rice sells as follows:—

|            |     |     |     |     |                     |
|------------|-----|-----|-----|-----|---------------------|
| Sadar      | ... | ... | ... | ... | 15 seers per rupee. |
| Kishanganj | ... | ... | ... | ... | 15 " "              |
| Araria     | ... | ... | ... | ... | 18 " "              |

**Malda.**—Rainfall at Sadar 2·39, Chanchal 4·98, Shibganj 1·20, Gajol ·25. The recent rain has done much good to the standing *rabi* crops. Common rice selling at 12 seers per rupee at Sadar.

**Sonthal Parganas.**—Rain in the north-west; more rain wanted in the south and south-west. *Rabi* crops doing well where most important. Prices—common rice 13½ to 18 seers (average 15½ seers), maize 17½ to 20 seers (average 18½ seers). Cattle in health. Fodder and water sufficient.

**Cuttack.**—Rainfall nil. Weather seasonable. *Guru sarad* being harvested. *Rabi* being threshed. Condition of cattle generally good. Fodder sufficient. Common rice sells as follows:—

|            |     |     |     | Srs. c. |              |
|------------|-----|-----|-----|---------|--------------|
| Cuttack    | ... | ... | ... | 15 12   | } per rupee. |
| Jajpur     | ... | ... | ... | 18 6    |              |
| Kendrapara | ... | ... | ... | 18 6    |              |
| Banki      | ... | ... | ... | 19 6    |              |

**Balasore.**—Rainfall nil. Harvesting of *sarad* and *rabi* crops continues. Sugarcane being pressed. *Dalua* and cotton crops growing well. Price of rice varies from 15 to 19 seers per rupee in the interior. Rice sells at 16 and 18 seers per rupee at Balasore and Bhadrak respectively. Fodder and water sufficient.

**Angul.**—Rainfall nil. Reaping of crops over. Rice sells at 24 seers per rupee in Angul and at 15½ seers in Khondmals.

**Puri.**—No rain. Reaping of *sarad* completed. Sowing of summer rice and *moong* continues. Mustard and *kolthi* being harvested. Prospects of *khesari* and other *rabi* crops good. Common rice sells as follows:—

|                                 |     |     |     | Srs. c.       |              |
|---------------------------------|-----|-----|-----|---------------|--------------|
| Puri                            | ... | ... | ... | 17 1          | } per rupee. |
| Khurda                          | ... | ... | ... | 14 7          |              |
| In the interior of the district | ... | ... | ... | 15-12 to 18 6 |              |

**Hazaribagh.**—Rainfall at Sadar 02. Weather seasonable and cloudy. Prospects of standing crops reported favourable from all thanas. Poppy promises well. Rice selling at 12 to 15 seers per rupee.

**Lohardaga.**—State of standing crops good, but rain is wanted. Rice sells at Ranchi 13 seers per rupee, and in the interior from 13 to 20 seers. Fodder and water sufficient. Grain in stock sufficient. Cattle-disease continues.

**Palamau.**—Rainfall at Sadar 29. Weather cloudy. Prospects of *rabi* crops little better. Sugarcane being pressed. Fodder and water sufficient. Rice sells at 12 seers per rupee.

**Manbhum.**—No rain. Weather seasonable but sometimes cloudy. Prospects of crops on the ground good. Cattle-disease reported from thana Ohas. Fodder and water sufficient. Average price of common rice at Sadar 16 seers, and at Gobindpur 15 seers per rupee. Supply sufficient.

**Singhbhum.**—Rainfall nil. Rice plentiful. Price 14 to 16 seers per rupee.

**General Summary.**—There was general rain in Bihar and the north of Bengal, and slight showers are also reported from parts of East Bengal and Chota Nagpur. The *rabi* crops in general have benefited by the rain, but a few crops in flower have suffered. In Jalpaiguri the standing crops are reported to have suffered from a severe hail-storm on the night of the 5th instant. Reports of the poppy crop in Bihar are favourable, but round Motihari it has been damaged by hail, and in Siwan some blight has appeared in light soils. The ploughing of lands for *bhadoi* and jute has begun in the Rajshahi Division. The pressing of sugarcane is proceeding, and potatoes, mustard, and other early *rabi* crops are being gathered. The price of rice has fluctuated in a few places, but on the whole it has been stationary for some weeks past. No cattle-disease is reported except from places in Bankura, Hooghly, Jessore, Purnea and Lohardaga.

By order of the Lieutenant-Governor of Bengal,

REVENUE DEPARTMENT,

The 8th February 1898.

M. FINUCANE,

Secretary to the Govt. of Bengal.
